PUT AN END TO RUST

WEICON

German Quality Industrial grade

CORROSION PROTECTION

METAL COATINGS

Active corrosion protection through cathodic effect

Passive corrosion protection through high barrier effect

Zinc Spray

- Provides long-lasting, high-quality cathodic corrosion protection for all metal surfaces
- Quick-drying, durable, hard-wearing protective coating
  - Colour: lightly weathered hot-dip galvanised finish

NSF

▸ 400 ml
10000016

Zinc Spray bright grade

- Long-lasting cathodic corrosion protection, even against extreme weather and environmental conditions
- High-quality anti-rust primer
- Colour: matched to fresh hot-dip galvanising

▸ 400 ml
10000047

NSF

Galva Spray

- Easy application and an even spray pattern
- Designed for finishing work on hot-dip galvanised components
- Colour: matched to fresh hot-dip galvanising

▸ 400 ml
10040054

Zinc-Alu Spray

- Provides long-lasting protection against rust and corrosion
- Forms a quick-drying, durable protective coating and is resistant to many chemicals
  - Colour: matched to hot-dip galvanising

▸ 400 ml
10000048

Brushable Liquid Zinc Paint

- Long-lasting, optimal corrosion protection for all metal surfaces
- High zinc content
- Colour: zinc grey, matt

▸ 750 ml
10000321

Brushable Liquid Zinc Coating

- Durable corrosion protection for metallic surfaces
- Colour: matched to fresh hot-dip galvanising

▸ 750 ml
10000328

Passive corrosion protection through high barrier effect

Stainless Steel Spray

- Chemical-resistant, corrosion-resistant and weather-resistant surface coating
- Based on acrylic resin and stainless steel pigments
  - Colour: stainless steel metallic, matt

▸ 400 ml
10000139

Stainless Steel Spray bright grade

- Chemical-resistant, corrosion-resistant and weather-resistant surface coating
- Gives surfaces the appearance of pre-treated stainless steel
- Colour: stainless steel metallic, bright

▸ 400 ml
10032003

Rust Protection 2000 Plus silver-grey

- Weather-resistant and long-lasting corrosion protection
- Visually appealing surface coating
- Colour: silver-grey (DB 701)

▸ 400 ml
10021354

Rust Protection 2000 Plus anthracite

- Weather-resistant and long-lasting corrosion protection
- Visually appealing surface coating
  - Colour: anthracite (DB 703)

▸ 400 ml
10021353

Aluminium Spray A-100

- Protects against rust and corrosion
- Abrasion-resistant and resistant to many diluted acids and alkalis as well as weathering effects
- Colour: aluminium metallic, matt

▸ 400 ml
10000050

Aluminium Paint

- Effective corrosion protection on all metallic surfaces
- Protects against abrasion and chemical exposure
- Colour: aluminium, metallic gloss

▸ 750 ml
10012085

WAX-BASED SURFACE AND CAVITY PROTECTION

Passive corrosion protection through high barrier effect

Corro-Protection spray

- Preserves metal tools and precision parts permanently with a dry and wax-based coating
- Effective corrosion protection for unpainted metals, indoor storage and overseas shipping
- Colour: milky, magenta

▸ 400 ml
10000157

Corro-Protection liquid

- Preserves metal tools and precision parts permanently with a dry and wax-based coating
- Effective corrosion protection for unpainted metals, indoor storage and overseas shipping
- Colour: colourless

▸ 1 L
10007619

LUBRICANTS AND RELEASE AGENTS

Release pastes with special anti-corrosion properties for use between metal contact surfaces

Anti-Seize Assembly Paste

- Versatile all-rounder for protection, release and lubrication
- Temperature-resistant from −180 °C to +1,200 °C
- High load capacity with 4,200 N load-carrying capacity and 4,400 N welding force

▸ 450 g
10000175

Anti-Seize Nickel Assembly Paste

- For extreme temperatures up to +1,450 °C
- Resistant to water, steam and aggressive chemicals
- For highly stressed connections and slow-rotating equipment

▸ 450 g
10000186

Anti-Seize Ceramic Paste

- Metal-free and white colour
- Compatible with stainless steel and nickel alloys, with no formation of chromium(VI)
- Very high load-bearing capacity (7,000 N/mm²) and corrosion resistance

▸ 450 g
10067869

Anti-Seize High-Tech

- Metal-free with NSF H1 approval
- White colour and suitable for all materials
- Temperature-resistant up to +1,400 °C and electrically insulating

NSF

▸ 450 g
10000196

Copper Paste

- Protective, release and lubricating agent for highly stressed parts
- Suitable for high temperatures
- Protects against corrosion and fretting corrosion
- Colour: copper

▸ 450 g
10000950

Allround-Lubricant AL-W

- Special lubricant, also suitable for underwater applications
- Resistant to corrosive liquids such as seawater and waste water
- Suitable for rolling and plain bearings, joints (NLGI grade 1–2)
- NATO Specification G-460

▸ 400 g
10016748

RUST TREATMENT

Rust Remover liquid

- Highly concentrated immersion bath for removing rust down to the bare metal
- Can be diluted with water and reused several times
- Also suitable for ultrasonic baths

▸ 1 L
10101897

Rust Remover gel

- Quick and gentle rust removal
- Solvent-free and very economical
- Also suitable for stainless steel, copper, brass, chrome and silver

▸ 1 L
10101908

Rust Converter spray

- Rust conversion and priming in a single operation
- Effective neutralisation of rust
- Colour: beige, transparent

▸ 400 ml
10047458

Rust Loosener fluid

- Penetrating oil for sensitive areas
- Releases seized and oxidised fasteners, provides long-lasting protection against corrosion and oxidation
- NSF H1 approval for the food industry (registration 152621)
  - Colour: beige

NSF

▸ 400 ml
10039111

Rust Shock

- Chemical solution for seized fasteners
- Loosens all types of screw connections in seconds
- Cold shrink effect, capillary action and oil lubrication
- Colour: transparent

▸ 400 ml
10000143

W 44 T® Multi-Spray

- Corrosion protection, water displacement, lubrication, preservation and cleaning in one product
- Loosens rust and assists in releasing seized components
- Eliminates squeaking and creaking noises
- Colour: yellowish

▸ 500 ml
10039121
