Anti-Seize

Easy – clean – safe application

WEICON Anti-Seize

Corrosion protector and highperformance assembly paste or spray.

Due to its special formulation and most finely ground solid lubricants this product fills all irregularities in the surface and effectively protects against seizure, abrasion, pitting and fretting corrosion. Anti-Seize withstands highpressure loads (< 230 N/mm²) and is temperature resistant from -180°C (-292°F) up to +1,200°C (+ 2,192°F).

WEICON Anti-Seize „High Tech“

White, metal-free* corrosion protection and high-performance assembly paste or spray. Prevents electrolytic corrosion (“cold welding”) between metals. It is temperature resistant from -40°C (-40°F) up to +1,400°C (+ 2,552°F). Anti-Seize “High-Tech” is especially suitable for assembly work where the use of metal-containing compounds is not wanted for optical reasons, where nickel-containing products are prohibited for health reasons and where copper-containing products are prohibited for electro-chemical reasons. Conform to NSF H1 standard for the use in the food industry.

*Contains under 0,1%

WEICON Copper Paste

Copper Paste is a protecting, separating and lubricating agent for highly stressed parts, used as assembly lubricant for threaded joints and sliding surfaces of all kinds. Even with high temperatures and corrosive atmospheres, fretting corrosion and seizing is prevented efficiently. The strongly-adhering paste consists of special additives and a combination of solid lubricants made of graphite and copper particles. This ensures low friction values in threaded joints and excellent separating characteristics.

Delivery form:

| | |
|------------------------------|--------------------|
| 500 g Anti-Seize | Art.-No.: 26000050 |
| 500 g Anti-Seize „High-Tech“ | Art.-No.: 26100050 |
| 500 g Kupferpaste | Art.-No.: 26200050 |

Brushtop can
500 g
