

# Cleans and supports the disinfection of all common surfaces

WEICON Citrus Cleaner has a high alcohol content and thus a disinfectant effect, which supports the overall cleaning and disinfection of surfaces.

The all purpose cleaning agent can be used in various industries and trades such as in window construction, public institutions, transport, facility management, construction companies as well as around the house. It cleans a wide range of materials, such as metals, plastics, glass, ceramics and painted or coated surfaces\*. WEICON Citrus Cleaner also provides excellent results and high efficiency in basic cleaning activities and in the support of additional cleaning practices of frequently used hand tools as well as in removing staining due to pencils, ballpoint pens and felt-tip pens.

**cleans various materials**

**supports disinfection**

**evaporates without residues**
