Plastic Metal

WEICON Plastic Metals are two-component epoxy resin systems. They are ideal for providing fast, cost-effective and durable repairs and coatings for many different types of material.

WEICON A

- for general repairs
- pasty, steel-filled

0,5 kg ✓
10000003

2,0 kg ✓
10000006

WEICON HB 300

- steel-filled
- pasty, spreadable
- high-temperature-resistant from -35°C to +280°C (-31°F up to +672,8°F)

1,0 kg ✓
10000099

WEICON Ceramic BL

- for lining of heavily stressed parts
- liquid
- high-temperature-resistant from -35°C up to +180°C (-31°F up to +356°F)

0,5 kg ✓
10000093

2,0 kg ✓
10005233

WEICON A - Repair of a deflector roll

WEICON Ceramic BL - Coating of pipe bends

WEICON Solutions for the Mining Industry

Plastic Metal

WEICON SF

- ideal for quick repairs
- pasty

0,5 kg ✓

10000071

2,0 kg ✓

10000072

WEICON WP

- extremely high resistance against abrasion and wear
- filled with ceramic beads
- suitable for the protection of heavily used surfaces

2,0 kg ✓

10032320

10,0 kg ✓

10032939

WEICON WR2

- highly abrasion-resistant
- pasty
- is particularly suitable for areas where the processing of casting compounds is not possible

0,5 kg ✓

10000087

2,0 kg ✓

10000088

WP - Sag mill chute liner repair & wear protection

Cross-section of Plastic Metal WP abrasion layer

WEICON CBC Chocking Backing Compound

Specially developed for the shimming and backfilling of systems difficult to align.

- liquid and self-levelling
- vibration resistant
- break and impact resistant

3.0 kg (2,0 l) ✓

10045020

10.0 kg (6,6 l) ✓

Repair Sticks

The simple solution for all repair and maintenance works. Easy to use. Always the right amount, even for small repairs.

Steel

Certified to NSF/ANSI 61

- fast-curing, steel-filled
- NSF approval, can be used in drinking water areas

115 g ✓
10007705

Titanium

- high-temperature-resistant up to +280°C (+536°F)
- wear-resistant, titanium-filled

115 g ✓
10011970

WEICON Urethanes

Flexible casting and coating resin with high impact strength and abrasion resistance.

Urethane 80

- shore hardness A 80
- liquid and self-levelling casting and coating mass

0,5 kg ✓

WEICON Solutions for the Mining Industry

Anti-Seize Assembly Pastes

All kinds of influencing factors, e.g. moisture, temperature or friction, repeatedly lead to corrosion damage, seizure and wear on machines and installations.

Extensive repair and maintenance works at considerable costs are the consequence.

Especially under extreme conditions of application, e.g.

- high operation temperatures
 - high pressure loads
 - outdoor weather conditions
- such consequences frequently occur.

Anti-Seize

- long-lasting protection against corrosion, seizure and wear
- high-temperature-resistant up to $+1.200^{\circ}\text{C}$ ($+2.192^{\circ}\text{F}$)
- exceptionally good separating effect

Technical Sprays and Liquids

Technical sprays and liquids are employed in almost all industrial sectors. They are used for the maintenance and protection of surfaces, for cleaning and degreasing, lubricating, releasing and separating, and are an essential part in daily work.

Sealant and Adhesive Remover

- removes residues of hardened sealants and adhesives
- removal of old paints and lacquers

400 ml ✓
10026705

Cleaner Spray S

- powerful
- evaporates without leaving residues
- leaves no oily residues

500 ml ✓ 5 l ✓
10000147 10000347

WEICON Solutions for the Mining Industry

Technical Sprays and Liquids

Double Nozzle

Only for the 500 ml product

W 44 T® Multi-Spray

- lubricates mechanical precision devices
- repels moisture
- protects against corrosion

400 ml ✓
10001023

500 ml ✓
10039121

5 l ✓
10007793

Rust Converter

- neutralises rust
- provides a temporary protective coating

400 ml ✓
10047458

Rust Shock

- the 'chemical wrench'
- free of mineral oil, grease and silicone
- loosens threaded joints within a very short time

400 ml ✓
10000143

Rust Protection 2000 PLUS

- high corrosion and weathering resistance

400 ml ✓
10021353
charcoal-grey

400 ml ✓
10021354
silver grey

Zinc Spray

- long-term cathodic corrosion protection for all metal surfaces
- resistant protective layer, even under extreme weather and environmental conditions
- >550 hours salt spray test according to DIN EN ISO 9227

400 ml ✓
10000016

Zinc Spray bright grade

- long-term cathodic corrosion protection
- bright colour shade matching hot-dip galvanization
- >550 hours salt spray test according to DIN EN ISO 9227

400 ml ✓
10000047

Chain and Rope Lube Spray

- pressure-resistant
- strongly adherent
- for highly stressed chain and wire ropes

400 ml ✓
10000155

Anti-Spatter Spray

- protects work pieces and welding nozzles
- for optimum welding results
- silicone-free

400 ml ✓
10000160

5 l ✓
10000337

For further packing sizes and more detailed product information, please visit our website www.welcon.com

Technical Sprays and Liquids

Belt Dressing Spray

- prevents belt slip
- for all kinds of drive belts
- can also be used during ongoing operation

400 ml ✓
10031504

Pneuma-Lube

- lubricant for pneumatic equipment
- high content of PTFE
- excellent weathering resistance
- temperature resistance from -50°C up to +210°C (-58°F up to +410°F)

400 ml ✓ 5 L ✓
10010547 10010554

Smoke Detector Test Spray

- evaporates without leaving residues
- silicone-free

150 ml ✓ 250 ml ✓
10031819 10027381

Crack Testing Agent

1 Clean the surface with the Cleaner/Remover

2 Apply Penetrant and allow to react

3 Clean again to remove excess Penetrant

4 Apply Developer and perform final visual assessment

Cleaner, Penetrant and Developer for the non-destructive material testing by way of colour penetration process

Cleaner/Remover 1 & 3

Material-neutral special cleaner for the colour penetration test. Suitable for metals, many plastics, ceramic materials, glass etc. The suitability for plastic has to be tested in advance.

500 ml ✓
10047463

Penetrant 2

Red diffusion agent with excellent capillary action for the non-destructive material testing - washes off with solvent. Suitable for metals, many plastics, ceramic materials, glass etc. The suitability for plastic has to be tested in advance.

500 ml ✓
10047461

Developer 4

Colourfast special developer on solvent basis for colour penetration tests. Suitable for metals, many plastics, ceramic materials, glass etc. The suitability for plastic has to be tested in advance.

500 ml ✓
10047462

Standards and regulations
Sample-tested according to DIN EN ISO 3452-2. Low sulphur and halogen content, according to DIN EN ISO 3452-2 and ASME-Code, Section V, Article 6. AREVA NP TLV 9017.

WEICON Solutions for the Mining Industry

Elastic Adhesives and Sealants

Elastic adhesives and sealants are used in many areas of industrial production and assembly today. They combine the advantages of adhesive bonding and sealing technology and are used wherever the elasticity and the sealing of a joint are the most important requirements.

Flex 310 M® Classic

- suitable for universal use
- free of silicone, isocyanate, halogens or solvents
- ISEGA and LFGB certificated

310 ml ✓	310 ml ✓	310 ml ✓
10002576	10010026	10010024

WEICONLOCK® Anaerobic Adhesives and Sealants

Especially made for economical threadlocking, retaining and sealing of threaded, cylindrical and pipe assemblies. A vibration- and impact resistant adhesive bond is formed after curing, which

is resistant to chemicals, solvents and temperatures of -60°C up to +200°C (-76°F up to 392°F).

AN 302-43

- threadlocking
- thread connections up to M 36
- drinking water and DVGW approval

higher viscosity
medium strength
disassembly with normal tools

50 ml ✓
10017876

AN 302-70

- locking of threads and stud bolts
- thread connections up to M 36
- drinking water and DVGW approval

medium viscosity
high strength
hard to disassemble

50 ml ✓
10017884

AN 305-77

- sealing of threaded pipes and fittings
- drinking water and DVGW approval

high viscosity
high strength
hard to disassemble

50 ml ✓
10019949

Tested and safety-evaluated by the Federal Institute for Material Research and Testing according to information sheet M 034-1 List of nonmetallic materials supporting document to code of practice M 034e "Oxygen" (DGVU Information 213-074)

Contact Cyanoacrylate Adhesive

WEICON Contact are solvent-free instant adhesives. They bond various materials, such as metal, glass, wood, plastic, ceramic, leather and rubber, within seconds.

VA 100

- cyanoacrylate Adhesive for rubber and plastics
- medium viscosity
- slightly longer cure time

30 g ✓
10016433

VA 250 Black

- high peel and impact resistance
- residual elasticity after curing
- high-temperature-resistant from -55°C up to +140°C (-67°F up to +284°F)

30 g ✓
10016400

WEICON O-Ring Bonding Set

Content:
