## Formulation check for WEICONLOCK AN 302-80

Order dated 27.08.2020 and legally binding declaration dated 06.10.2020

Dear Mr. Lükemann,

according to the order, we reviewed the formulation of the anaerobic adhesives **WEICONLOCK AN 302-80**.

The substances in the sent formulation are conform to the reference formulation of the German Environmental Agency's information document from 11.02.2016 on the "Hygienic assessment of anaerobic adhesives that come in contact with drinking water".

This assessment of conformity will no longer be valid as soon as there is a change made to the formulation or when the German Environmental Agency changes the Guideline.

The validity of this statement under unchanged conditions, begins from the date of issue and ends on 28.10.2025. After this date a new formulation disclosure must take place.

With kind regards

The Director of the Hygiene-Institute  
on behalf of

Dr. rer. nat. Andreas Koch  
Head of the Dept. for water  
hygienic material testing
