

# Hand Protective Foam

## Waterproof and providing lasting protection

The skin is the largest and one of the most complicated organs in the human body, it has diverse adjustment and defense mechanisms and provides protection against environmental influences. Bacteria, viruses and fungi can be found everywhere in the environment and also live on our skin. Most of them are harmless to us. Some of these microorganisms, however, can make us sick when entering our body. Skin damages are one of the many gateways for pathogens to the human body. Therefore, it is crucial to take care of and protect the skin. One important element of effective skin protection is the special care with WEICON Hand Protective Foam, which protects your hands from harmful environmental influences for several hours. WEICON Hand Protective Foam provides temporary protection against aggressive sea and industrial environments, chemicals, solvents, alkalis, acids, salts, cleaning agents, oils, greases, cement, mortar, varnishes, adhesives or longer contact with aqueous media. However, the foam does not replace a conventional protective glove. The Hand Protective Foam does not block skin respiration, does not dry out the skin and protects it against swelling, irritations, inflammations and adhering dirt. That way, the Hand Protective Foam supports the skin in providing a natural protective barrier.

## Technische Daten

Odour	odourless
Colour	white
Specific properties	with liposomes, dermatologically tested
Silicone-free	yes
Shelf life	24 mon.

## Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation. We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.

## Approvals / Guidelines

ISSA Code

53.402.16

## Processing

Before starting to work, spray the foam onto the hands and rub it in, not omitting the finger tips and nail beds. Leave it on for 2 minutes until it forms a waterproof and invisible protective film free of grease. It prevents residues of lubricants and soiling of the most different kinds from penetrating skin and pores. After work, the dirt can be washed off very easily with warm water. Only in cases of heavy soiling, use additional cleaning agents.

## Storage

Pressurized container. Protect from direct sunlight and temperatures above +50°C.

## Instructions for use

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.

## Available sizes

- 10021320 Hand Protective Foam, 200 ml, white
- 10059965 Hand Protective Foam, 200 ml, white
