Technical Sprays
Lubricating and Multifunctional Oils

PTFE-Spray

Grease-free | excellent sliding properties (non-stick)

WEICON PTFE-Spray is a grease-free, dry lubricant based on PTFE with excellent sliding properties. PTFE Spray adheres to all metal, plastic and wood surfaces. Its high PTFE content greatly reduces the friction coefficient. The coating repels dirt, dust and water and is resistant to oils, greases and many chemicals. WEICON PTFE Spray can be used on runners and guides, conveyor belts, transport rollers, slides, windows, cutting tools and packing machines. It can also be used as a as a water-repellent coating for paper seals, cork seals and seal packaging, as a substitute for release agents containing silicone, and wherever oil or grease lubrication is not permitted or desired.

Application

Clean and degrease surfaces prior to application. Shake can until rattle of mixing ball is heard. Spray on cleaned and dry surfaces from about 20 cm distance. In case of continued use, shake can again from time to time. At room temperature (+20°C), the coating is dust-dry approx. 10 minutes after spraying.

Storage

Container is pressurised. Protect from direct sunlight and temperatures above +50 °C.

Instructions for use

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.

Available sizes

10000151 PTFE-Spray, 400 ml, white

Technical data

Odour		nearly odourless
Colour		white
Specific properties		based on PTFE
Silicone-free		yes
Minimum shelf life	at room temperature	24 mon.
Temperature resistance		-180°C to +250°C
Compatible with Double Nozzle		no

Approvals / Guidelines

ISSA Code	53.402.13
IMPA Code	450827
