

# PTFE-Spray

Grease-free | excellent sliding properties (non-stick)

WEICON PTFE-Spray is a grease-free, dry lubricant based on PTFE with excellent sliding properties. PTFE Spray adheres to all metal, plastic and wood surfaces. Its high PTFE content greatly reduces the friction coefficient. The coating repels dirt, dust and water and is resistant to oils, greases and many chemicals. WEICON PTFE Spray can be used on runners and guides, conveyor belts, transport rollers, slides, windows, cutting tools and packing machines. It can also be used as a water-repellent coating for paper seals, cork seals and seal packaging, as a substitute for release agents containing silicone, and wherever oil or grease lubrication is not permitted or desired.

## Technische Daten

Odour	nearly odourless
Colour	white
Specific properties	based on PTFE
Silicone-free	yes
Temperature resistance	-180°C to +250°C
Shelf life	24 mon.

## Approvals / Guidelines

ISSA Code	53.402.13
-----------	-----------

## Processing

Clean and degrease surfaces prior to application. Shake can until rattle of mixing ball is heard. Spray on cleaned and dry surfaces from about 20 cm distance. In case of continued use, shake can again from time to time. At room temperature (+20°C), the coating is dust-dry approx. 10 minutes after spraying.

## Storage

Pressurized container. Protect from direct sunlight and temperatures above +50°C.

## Instructions for use

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets ([www.weicon.com](http://www.weicon.com)) must be observed.

## Available sizes

10000151 PTFE-Spray, 400 ml, white

## Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation. We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.
