Corro-Protection

Corrosion protection for indoor and outdoor storage of metal parts

WEICON Corro-Protection is a TÜV-tested protective film and permanently preserves tools and precision parts made of metal with a dry, wax-like layer.

Corro-Protection can be used as reliable corrosion protection for bare, non-painted metal parts, for the indoor storage and temporary outdoor storage of workpieces, as corrosion protection during overseas shipping and for the preservation of tools and precision parts.

If required, the protective film can easily be removed (e.g. with WEICON Cleaner S).

Technical data

Odour		solvent
Specific properties		based on wax
Silicone-free		yes
Consumption	per 1.5 crosswise application	~ 2 m^2
Minimum shelf life	at room temperature	24 mon.
Salt spray test	DIN 53167:1985-12	> 500 h
Temperature resistance		-20 °C to +80 °C
Compatible with Double Nozzle		yes

Approvals / Guidelines

ISSA Code	53.402.08
IMPA Code	450815

Application

Clean and degrease surfaces with WEICON Cleaner Spray S. Apply WEICON Corro-Protection (Spray). After approx. 3 to 4 hours, the layer is fully cured at room temperature. To increase the corrosion protection, several layers can be applied. The protective layer can be removed with WEICON Cleaner Spray S.

Storage

Container is pressurised. Protect from direct sunlight and temperatures above +50 °C.

Instructions for use

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.

Available sizes

10000157 Corro-Protection, 400 ml, colourless
