Corro-Protection

Corrosion protection of metal parts for indoor storages

WEICON Corro-Protection is a protective film approved by the German TÜV. It permanently preserves metal tools and precision components with a dry and waxy layer.

WEICON Corro-Protection can be used as safe corrosion protection for bare, unpainted metal parts, for the indoor storage of work pieces, as corrosion protection during overseas transport and for the conservation of tools and precision components.

The protective film can be removed easily (e.g. with WEICON Cleaner S).

Technical data

Odour		solvent
Specific properties		based on wax
Silicone-free		yes
Consumption	per 1.5 crosswise application	~ 2 m²
Minimum shelf life	at room temperature	24 mon.
Salt spray test	DIN 53167:1985-12	> 500 h
Temperature resistance		-20 °C to +80 °C
Shelf life		24 mon.
Approvals / Guidelines		
ISSA Code		53.402.08
IMPA Code		450815
MIL-Spec		MIL-C-16173

Processing

Clean and degrease surfaces with WEICON Cleaner Spray S. Apply WEICON Corro-Protection (Spray). After approx. 3 -4 h, the layer is fully cured at room temperature. To increase the corrosion protection, several layers can be applied. The protective layer can be removed with WEICON Cleaner Spray

Storage

Pressurized container. Protect from direct sunlight and temperatures above +50°C.

Instructions for use

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.

Available sizes

10000157 Corro-Protection, 400 ml, colourless 10053034 Corro-Protection, 400 ml, magenta

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation. We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the requested properties are recommended. A claim cannot be derived from them.
