

# Freeze Spray

## Precise chilling down to -45 °C (-49 °F)

WEICON Freeze Spray has many uses and is suitable for fault-finding in electronics and for repair works in the industrial sector. Freeze Spray quickly cools parts down to -45 °C and allows pinpointed chilling of even the smallest construction parts. WEICON Freeze Spray is non-conductive and neutral to materials (with the exception of plastic) and can be used in many industrial and technical applications.

### Technical data

Odour	nearly odourless	
Specific properties	precise cooling down to -45 °C	
Silicone-free	yes	
Minimum shelf life	at room temperature	24 mon.
<b>Approvals / Guidelines</b>		
MIL-Spec	complies with	MIL-T-83523

### Application

Freeze Spray contains a special refrigerant for all applications. It creates a local cooling of the sprayed areas of down to -45 °C. Spraying from a distance of 20 to 30 cm is recommended. Freeze Spray has an instant cooling effect and does not leave any residue. Caution: Danger of hypothermia in case of skin contact! Be sure to hold the can vertically, do not shake it. Operate the spray head at short intervals as required. When used on electrical equipment, ensure good ventilation before switching the device back on to avoid possible deflagration of gas nests caused by switching sparks.

### Storage

Container is pressurised. Protect from direct sunlight and temperatures above +50 °C.

### Instructions for use

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets ([www.weicon.com](http://www.weicon.com)) must be observed.

### Available sizes

10011613 Freeze Spray, 400 ml

### Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation. We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.
