Leak Detection Spray frost-proof

DVGW-approval | foam-forming leak detector according to DIN EN 14291 | non-flammable | anti-corrosive | frost-proof up to -15 °C (+5 °F)

The safe, easy and quick way to find leaks or porous spots on gas pipes, cooling and air conditioning systems. Leak Detection Spray frost-proof does not form any harmful compounds with these gases: carbon dioxide (CO_2), propane, butane, acethylene, oxygen, coal and natural gas, nitrogen, dinitrogen monoxide (N_2O) and CFC. It is non-flammable. Leak Detection Spray frost-proof is suitable wherever compressed air or gaseous substances are used. The spray can be used, for example, on pipes, hoses, fittings, soldered, screw and welded connections, fittings, valves connectors and adapters.

Application

Spray onto the area to be tested. Leaking spots cause bubbles. Due to the special formulation, even the smallest leaks are detected. Rinse plastic and copper pipes thoroughly with water after use.

Storage

Container is pressurised. Protect from direct sunlight and temperatures above +50 °C.

Instructions for use

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.

Available sizes

10051122 Leak Detection Spray frost-proof, 400 ml, white, milky

Technical data

Odour		nearly odourless
Colour		white, milky
Specific properties		frost-resistant, suitable for oxygen, CO_2, gas, DVGW-certified
Minimum shelf life	at room temperature	24 mon.
Temperature resistance		-15 °C to +50 °C
Compatible with Double Nozzle		yes

Approvals / Guidelines

MIL-Spec	complies with	MIL-PRF-25567 Type I
