**Ideal for wet and moist surfaces | ISEGA-certified**

WEICON Aqua-Flex is strong, paintable (wet-on-wet), has an outstanding resistance to ageing and is resistant to weathering, UV rays as well as fresh and salt water. It is free of silicone, isocyanate, halogens and solvents. The product as an ISEGA certificate and can be used as an adhesive in the food technology. ## Approvals / Guidelines

IMPA Code	815279/80/81

## Surface pre-treatment

Surfaces must be clean and free of grease. Many surface soiling, such as oil, grease, dust and dirt can be removed with WEICON

Surface Cleaner. For heavily soiled metal surfaces, we recommend Cleaner Spray S; for removing old colour residues or adhesive

residues, WEICON Sealant and Adhesive Remover is ideal. Most materials can be bonded to and among each other. For certain materials or special requirements, we recommend the use of a

bonding agent (primer). Mechanical surface pre-treatment e.g. by grinding or sanding can also improve the adhesion considerably.

## Processing

Application methods Cartridge gun for 310 ml cartridges, compressed air gun, we recommend a version with piston rod (WEICON Compressed Air Cartridge Gun), automatic dosing systems. In order to guarantee an ideal wetting, the bonding parts need to be joined, before the adhesive skins over (skin-over time).
