# SAFETY DATA SHEET

Easy-Mix N 5000 Epoxy Adhesive Resin

# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

### 1.1 Product identifier

| Product name |
|--------------|
| UFI          |
| Product code |
| Color        |

: Easy-Mix N 5000 Epoxy Adhesive Resin : X270-P0CK-W00S-2ES0

: 106521

: Yellow.

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Identified uses |  |
|-----------------|--|
| Epoxy resins    |  |

#### 1.3 Details of the supplier of the safety data sheet

WEICON GmbH & Co. KG Königsberger Str. 255 48157 Münster Germany Phone: +49 251 93220 Fax: +49(0)251 / 9322 - 244 Internet: www.weicon.de e-mail address of person : msds@weicon.de responsible for this SDS

#### 1.4 Emergency telephone number

| Telephone number | : EMERGENCY CONTACT – UK, UAE, South Africa (24h): Tel: ++44 1865 407333<br>(English)      |
|------------------|--|
|                  | TRĂNSPORT EMERGENCY CONTACT - UK, UAE, South Africa (24h): Tel: ++44 1865 407333 (English) |

## **SECTION 2: Hazards identification**

## 2.1 Classification of the substance or mixture

Product definition : Mixture

## Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Skin Irrit. 2, H315 Eye Irrit. 2, H319 Skin Sens. 1, H317 Aquatic Chronic 2, H411

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

## 2.2 Label elements

Hazard pictograms

Signal word

: Warning

# SECTION 2: Hazards identification

| Hazard statements   | : | H315 - Causes skin irritation.<br>H317 - May cause an allergic skin reaction.<br>H319 - Causes serious eye irritation.<br>H411 - Toxic to aquatic life with long lasting effects.   |
|---|---|---|
| Precautionary statements  |   |   |
| Prevention  | : | <ul> <li>P280 - Wear protective gloves. Wear eye or face protection.</li> <li>P273 - Avoid release to the environment.</li> <li>P261 - Avoid breathing vapor.</li> <li>P264 - Wash thoroughly after handling.</li> </ul>  |
| Response  | : | <ul> <li>P391 - Collect spillage.</li> <li>P362 + P364 - Take off contaminated clothing and wash it before reuse.</li> <li>P302 + P352 - IF ON SKIN: Wash with plenty of water.</li> <li>P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention.</li> <li>P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes.</li> <li>Remove contact lenses, if present and easy to do. Continue rinsing.</li> <li>P337 + P313 - If eye irritation persists: Get medical advice or attention.</li> </ul> |
| Storage   | : | Not applicable.   |
| Disposal  | : | P501 - Dispose of waste according to applicable legislation.  |
| Hazardous ingredients   | : | reaction product: bisphenol-A-(epichlorhydrin); epoxy resin (number average<br>molecular weight ≤ 700)<br>Formaldehyde, oligomeric reaction products with 1-chloro-2,3-epoxypropane and<br>phenol   |
| Supplemental label<br>elements  | : | Contains epoxy constituents. May produce an allergic reaction.  |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | : | Not applicable.   |
| 2.3 Other hazards   |   |   |
| Product meets the criteria<br>for PBT or vPvB according<br>to Regulation (EC) No.<br>1907/2006, Annex XIII  | : | This mixture does not contain any substances that are assessed to be a PBT or a vPvB.   |
| Other hazards which do not result in classification   | : | None known.   |

# **SECTION 3: Composition/information on ingredients**

| A-(epichlorhydrin); epoxy 0<br>resin (number average E<br>molecular weight ≤ 700) C<br>Ir | REACH #:<br>01-2119456619-26<br>EC: 500-033-5<br>CAS: 25068-38-6<br>Index: 603-074-00-8 | ≥50 - ≤75 | Skin Irrit. 2, H315<br>Eye Irrit. 2, H319<br>Skin Sens. 1, H317<br>Aquatic Chronic 2,<br>H411 | Skin Irrit. 2, H315:<br>C ≥ 5%<br>Eye Irrit. 2, H319:<br>C ≥ 5% | [1] |

| SECTION 3: Composition/information on ingredients |  |   |  |  |
|---|--|---|--|--|
|   |  | See Section 16 for<br>the full text of the H<br>statements declared<br>above. |  |  |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section. <u>Type</u>

[1] Substance classified with a health or environmental hazard

Occupational exposure limits, if available, are listed in Section 8.

## **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

4

| Eye contact  | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.  |
|--|--|
| Inhalation   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>If not breathing, if breathing is irregular or if respiratory arrest occurs, provide<br>artificial respiration or oxygen by trained personnel. It may be dangerous to the<br>person providing aid to give mouth-to-mouth resuscitation. Get medical attention if<br>adverse health effects persist or are severe. If unconscious, place in recovery<br>position and get medical attention immediately. Maintain an open airway. Loosen<br>tight clothing such as a collar, tie, belt or waistband.   |
| Skin contact   | : Wash with plenty of soap and water. Remove contaminated clothing and shoes.<br>Wash contaminated clothing thoroughly with water before removing it, or wear<br>gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the<br>event of any complaints or symptoms, avoid further exposure. Wash clothing before<br>reuse. Clean shoes thoroughly before reuse.  |
| Ingestion  | : Wash out mouth with water. Remove dentures if any. If material has been<br>swallowed and the exposed person is conscious, give small quantities of water to<br>drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not<br>induce vomiting unless directed to do so by medical personnel. If vomiting occurs,<br>the head should be kept low so that vomit does not enter the lungs. Get medical<br>attention if adverse health effects persist or are severe. Never give anything by<br>mouth to an unconscious person. If unconscious, place in recovery position and get<br>medical attention immediately. Maintain an open airway. Loosen tight clothing such<br>as a collar, tie, belt or waistband. |
| Protection of first-aiders                             | : No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.  |
| I.2 Most important sympton<br>Over-exposure signs/symp | gloves.  |

| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness |
|--------------|--|
| Inhalation   | : No specific data.  |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>redness                     |
| Ingestion    | : No specific data.  |

#### 4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician | : Treat symptomatically. Contact poison treatment specialist immediately if large |
|--------------------|---|
|                    | quantities have been ingested or inhaled.   |

| Date of issue/Date of revision         : 10/20/2022         Date of previous issue | : 10/19/2022 | Version : 4.01 | 3/14 |
|--|--------------|----------------|------|
|--|--------------|----------------|------|

## **SECTION 4: First aid measures**

Specific treatments

: No specific treatment.

## SECTION 5: Firefighting measures

| 5.1 Extinguishing media                           |     |   |
|---|-----|---|
| Suitable extinguishing media                      | :   | Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                    | :   | None known.   |
| 5.2 Special hazards arising f                     | rom | the substance or mixture  |
| Hazards from the substance or mixture             | :   | In a fire or if heated, a pressure increase will occur and the container may burst.<br>This material is toxic to aquatic life with long lasting effects. Fire water<br>contaminated with this material must be contained and prevented from being<br>discharged to any waterway, sewer or drain.  |
| Hazardous combustion products                     | :   | Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>halogenated compounds   |
| 5.3 Advice for firefighters                       |     |   |
| Special protective actions for fire-fighters      | :   | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.   |
| Special protective<br>equipment for fire-fighters | :   | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents. |

## **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, pro                                   | te | ctive equipment and emergency procedures   |
|---|----|--|
| For non-emergency<br>personnel                                  | :  | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or<br>mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
| For emergency responders  | :  | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| 6.2 Environmental precautions                                   | :  | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.   |
| 6.3 Methods and materials<br>for containment and<br>cleaning up | :  | Stop leak if without risk. Move containers from spill area. Dilute with water and mop<br>up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry<br>material and place in an appropriate waste disposal container. Dispose of via a<br>licensed waste disposal contractor.   |
| 6.4 Reference to other sections                                 | :  | See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.  |

# SECTION 7: Handling and storage

The information in this section contains generic advice and guidance.

#### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Avoid breathing vapor or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

#### **Seveso Directive - Reporting thresholds**

#### Danger criteria **Notification and MAPP** Category Safety report threshold threshold E2 200 tonne 500 tonne

#### 7.3 Specific end use(s)

| Recommendations            | : No | t available. |
|----------------------------|------|--------------|
| Industrial sector specific | : No | t available. |
| adutiona                   |      |              |

solutions

# SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

## **Occupational exposure limits**

No exposure limit value known.

Recommended monitoring : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness procedures of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### **DNELs/DMELs**

# Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878 - Germany

Easy-Mix N 5000 Epoxy Adhesive Resin

| Product/ingredient name   | Туре | Exposure                 | Value                   | Population            | Effects  |

|   | DMEL | Short term Dermal        | 0.0083 mg/<br>cm²       | Workers               | Local    |

#### **PNECs**

No PNECs available.

8.2 Exposure controls
 Appropriate engineering controls
 Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
 Individual protection measures
 Hygiene measures
 Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

## **SECTION 8: Exposure controls/personal protection**

| Eye/face protection             | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.  |
|---------------------------------|---|
| Skin protection                 |   |
| Hand protection                 | : Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary. Considering the parameters specified by the glove manufacturer,<br>check during use that the gloves are still retaining their protective properties. It<br>should be noted that the time to breakthrough for any glove material may be<br>different for different glove manufacturers. Recommended : 1 - 4 hours<br>(breakthrough time): nitrile rubber ; 4 - 8 hours (breakthrough time): Viton®/butyl<br>rubber |
| Body protection                 | <ul> <li>Personal protective equipment for the body should be selected based on the task<br/>being performed and the risks involved and should be approved by a specialist<br/>before handling this product.</li> </ul>   |
| Other skin protection           | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.   |
| Respiratory protection          | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. Recommended : organic vapor (Type AX) and particulate filter   |
| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.  |

# **SECTION 9: Physical and chemical properties**

## 9.1 Information on basic physical and chemical properties

| <u>Appearance</u>                               |   |
|---|---|
| Physical state                                  | : Liquid.   |
| Color   | : Yellow.   |
| Odor  | : Bland.  |
| Odor threshold                                  | : Not available.  |
| Melting point/freezing point                    | : Not available.  |
| Initial boiling point and<br>boiling range      | : >200°C (>392°F)   |
| Flammability                                    | : Slightly flammable in the presence of the following materials or conditions: open flames, sparks and static discharge and heat. |
| Upper/lower flammability or<br>explosive limits | : Not available.  |
| Flash point                                     | : Closed cup: >150°C (>302°F)   |
| Auto-ignition temperature                       | : Not applicable.   |
| Decomposition temperature                       | : Not available.  |
| рН  | : Not applicable.   |
| Viscosity                                       | : Not available.  |

#### 12.1 Toxicity

**Conclusion/Summary** : Not available.

#### 12.2 Persistence and degradability

Conclusion/Summary : Not available.

#### 12.3 Bioaccumulative potential

| Product/ingredient name   | LogPow       | BCF | Potential |
|---|--------------|-----|-----------|
| reaction product: bisphenol-<br>A-(epichlorhydrin); epoxy<br>resin (number average<br>molecular weight ≤ 700) | 2.64 to 3.78 | 31  | low       |
| Formaldehyde, oligomeric<br>reaction products with<br>1-chloro-2,3-epoxypropane<br>and phenol                 | 2.7          | -   | low       |

#### 12.4 Mobility in soil

| Soil/water partition coefficient (Koc) | : Not available. |
|--|------------------|
| Mobility                               | : Not available. |

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

#### 12.6 Endocrine disrupting properties

Not available.

#### 12.7 Other adverse effects

No known significant effects or critical hazards.

# **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

Product

## **SECTION 13: Disposal considerations**

| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. |
|---------------------|---|
| Hazardous waste     | : The classification of the product may meet the criteria for a hazardous waste.  |

## European waste catalogue (EWC)

| Waste code          | Waste designation  |
|---------------------|--|
| 08 04 09*           | waste adhesives and sealants containing organic solvents or other hazardous substances |
| Packaging           | ·  |
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible. Waste      |

#### F

packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

|   | Type of packaging  | European waste catalogue (EWC)  |
|---|--------------------|---|
|   | 15 01 10*          | packaging containing residues of or contaminated by hazardous substances  |
| S | pecial precautions | This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

# **SECTION 16: Other information**

Indicates information that has changed from previously issued version.

| 5 1 5   |
|---|
| : ATE = Acute Toxicity Estimate   |
| CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. |
| 1272/2008]  |
| DMEL = Derived Minimal Effect Level   |
| DNEL = Derived No Effect Level  |
| EUH statement = CLP-specific Hazard statement                                 |
| N/A = Not available   |
| PBT = Persistent, Bioaccumulative and Toxic                                   |
| PNEC = Predicted No Effect Concentration                                      |
| RRN = REACH Registration Number   |
| SGG = Segregation Group   |
| vPvB = Very Persistent and Very Bioaccumulative                               |
|   |

#### Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

| Classification          | Justification      |
|-------------------------|--------------------|
| Skin Irrit. 2, H315     | Calculation method |
| Eye Irrit. 2, H319      | Calculation method |
| Skin Sens. 1, H317      | Calculation method |
| Aquatic Chronic 2, H411 | Calculation method |

#### Full text of abbreviated H statements

|      | Causes skin irritation.<br>May cause an allergic skin reaction. |
|------|---|
| H319 | Causes serious eye irritation.                                  |
| H411 | Toxic to aquatic life with long lasting effects.                |
