# SAFETY DATA SHEET

Adhesive Spray extra strong

# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier	
Product name	: Adhesive Spray extra strong
UFI	: 6GH1-20FK-500V-N77D
Product code	: 118010
Color	: Colorless.
Product type	: Aerosol.

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses	
Aerosol product-Adhesives	
Uses advised against	Reason

#### 1.3 Details of the supplier of the safety data sheet

	•
WEICON GmbH & Co. KG	
Königsberger Str. 25,	
48157 Münster, Germany	
phone: +49 251 93220,	
Fax: +49 251 9322244	
email: info@weicon.de,	
URL: www.weicon.de	
e-mail address of person responsible for this SDS	: msds@weicon.de

#### 1.4 Emergency telephone number

#### National advisory body/Poison Center

Telephone number	: EMERGENCY CONTACT – UK, UAE, South Africa (24h): Tel: ++44 1865 407333
	(English) TRANSPORT EMERGENCY CONTACT - UK, UAE, South Africa (24h): Tel: ++44 1865 407333 (English)

# **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Product definition : Mixture

#### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Aerosol 1, H222, H229 Skin Irrit. 2, H315 STOT SE 3, H336 Aquatic Acute 1, H400 Aquatic Chronic 1, H410

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

#### 2.2 Label elements

Date of issue/Date of revision	: 5/12/2025	Date of previous issue	: 2/19/2025	Version
--------------------------------	-------------	------------------------	-------------	---------

#### Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2020/878 - Germany

Adhesive Spray extra strong

Hazard pictograms       :	SECTION 2: Hazards	ir	Ientification
Signal word       :: Danger         Hazard statements       :: H222, H229 - Extremely flammable aerosol. Pressurized container: may burst if heated.         H315 - Causes skin irritation.       H315 - Causes skin irritation.         H336 - May cause drowsiness or dizziness.       H410 - Very toxic to aquatic life with long lasting effects.         Precautionary statements       : P101 - If medical advice is needed, have product container or label at hand.         General       : P101 - May cause drowsiness or dizziness.         H410 - Very toxic to aquatic life with long lasting effects.         Prevention       : P210 - Meap away from heat, hot surfaces, sparks, open flames and other ignition source.         P251 - Do not piezer or burn, even after use.       P261 - Avoid prease to the environment.         P280 - Wear protective gloves.       P280 - Wear protective gloves.         Response       : P304 - P312 - IF INHALED: Call a POISON CENTER or doctor if you feel unwell.         P362 + P364 - Take off contaminated clothing and wash it before reuse.       P204 + P312 - Protect from sunlight. Do not expose to temperatures exceeding 50 'C(122 'F.         P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.       P204 + P232 - Store locked up.         P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.       P204 + P312 - IF NHALED: Call a POISON CENTER or doctor if you feel unwell.         Hazardous ingrodients       : cyclohexane       Su		-it	
Hazard statements       : H222, H229 - Extremely flammable aerosol. Pressurized container: may burst if heated.         H315 - Causes skin irritation.       H336 - May cause drowsiness or dizziness.         H410 - Very toxic to aquatic life with long lasting effects.         Precautionary statements         General       : P101 - If medical advice is needed, have product container or label at hand.         Provention       : P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.         Pervention       : P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition source.         P251 - Do not pierce or burn, even after use.       P264 - Wash thoroughly after handling.         P273 - Avoid breating dust or mist.       P264 - Wash thoroughly after handling.         P273 - Avoid release to the environment.       P280 - Vice any protective gloves.         Response       : P391 - Collect spillage.         P304 + P312 - IF INHALED: Call a POISON CENTER or doctor if you feel unwell.         P362 + P363 - Store locked up.         P410 + P412 - Protect from sunlight. Do not expose to temperatures exceeding 50 °C/(22 °F.         P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.         Disposal       : P501 - Dispose of waste according to applicable legislation.         Hazardous ingredients       : cyclohexane         Supplemental label       : Not appli		•	
heated.       H315 - Causes skin irritation.         H315 - Causes skin irritation.       H336 - May cause drowsiness or dizziness.         H410 - Very toxic to aquatic life with long lasting effects.         Precautionary statements         General       :         Prevention       :         Prevention       :         Prevention       :         Pervention       :	Signal word	:	Danger
General       : P101 - If medical advice is needed, have product container or label at hand. P102 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P211 - Do not spray on an open flame or other ignition source. P251 - Do not pierce or burn, even after use. P261 - Avoid breathing dust or mist. P264 - Wash thoroughly after handling. P271 - Use only outdoors or in a weil-ventilated area. P273 - Avoid release to the environment. P280 - Wear protective gloves.         Response       : P391 - Collect spillage. P304 + P312 - IF INHALED: Call a POISON CENTER or doctor if you feel unwell. P362 + P364 - Take off contaminated clothing and wash it before reuse.         Storage       : P405 - Store locked up. P410 + P412 - Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.         Disposal       : P501 - Dispose of waste according to applicable legislation.         Hazardous ingretients       : cyclohexane         Supplemental label elements       : Not applicable.         Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles       : This mixture does not contain any substances that are assessed to be a PBT or a vPvB.         2.3 Other hazards Product meets the criteriar for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII       : Aspiration hazard - Not applicable.	Hazard statements	:	heated. H315 - Causes skin irritation. H336 - May cause drowsiness or dizziness.
Prevention       P102 - Keep out of reach of children.         Prevention       : P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.         P211 - Do not spray on an open flame or other ignition source.       P251 - Do not pierce or burn, even after use.         P251 - Avoid breathing dust or mist.       P264 - Wash thoroughly after handling.         P271 - Use only outdoors or in a well-ventilated area.       P273 - Avoid release to the environment.         P280 - Wear protective gloves.       P304 + P312 - IF INHALED: Call a POISON CENTER or doctor if you feel unwell.         P364 - P312 - Fl NHALED: Call a POISON CENTER or doctor if you feel unwell.       P364 + P312 - IF INHALED: Call a POISON CENTER or doctor if you feel unwell.         P364 + P312 - Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.       P405 - Store locked up.         P410 + P412 - Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.       P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.         Disposal       : P501 - Dispose of waste according to applicable legislation.         Hazardous ingredients       : ocyclohexane         Supplemental label       : Not applicable.         elements       : Not applicable. cyclohexane	REACH #: 01-2119463273-41 EC: 203-806-2 CAS: 110-82-7 Index: 601-017-00-1	≥25 - ≤50	Flam. Liq. 2, H225 Skin Irrit. 2, H315 STOT SE 3, H336 Asp. Tox. 1, H304 Aquatic Acute 1, H400 Aquatic Chronic 1, H410	M [Acute] = 1 M [Chronic] = 1	[1] [2]
dimethyl ether	REACH #: 01-2119472128-37 EC: 204-065-8 CAS: 115-10-6 Index: 603-019-00-8	≥25 - ≤50	Flam. Gas 1A, H220 Press. Gas (Comp.), H280	-	[2]
			See Section 16 for the full text of the H statements declared above.		

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section. <u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

## **SECTION 4: First aid measures**

4.1 Description of first aid r	neasures
Eye contact	: Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
Inhalation	: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Get medical attention. If necessary, call a poison center or physician. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Skin contact	<ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.</li> </ul>
Ingestion	: Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention. If necessary, call a poison center or physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.
Date of issue/Date of revision	: 5/12/2025 Date of previous issue : 2/19/2025 Version : 1.2 3/16

# **SECTION 4: First aid measures**

#### 4.2 Most important symptoms and effects, both acute and delayed

#### Over-exposure signs/symptoms

Eye contact	: Adverse symptoms may include the following: pain or irritation watering redness
Inhalation	: Adverse symptoms may include the following: respiratory tract irritation coughing nausea or vomiting headache drowsiness/fatigue dizziness/vertigo unconsciousness
Skin contact	: Adverse symptoms may include the following: irritation redness
Ingestion	: No specific data.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Notes to physician	: Treat symptomatically. Contact poison treatment specialist immediately if large
	quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.

# **SECTION 5: Firefighting measures**

5.1 Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: None known.
5.2 Special hazards arising	rom the substance or mixture
Hazards from the substance or mixture	: Extremely flammable aerosol. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. Gas may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back, causing fire or explosion. Bursting aerosol containers may be propelled from a fire at high speed This material is very toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
Hazardous combustion products	: Decomposition products may include the following materials: carbon dioxide carbon monoxide
5.3 Advice for firefighters	
Special protective actions for fire-fighters	: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training. Move containers from fire area if this can be done without risk. Use water spray to keep fire-exposed containers cool.
Special protective equipment for fire-fighters	: Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

# **SECTION 6: Accidental release measures**

6.1 Personal precautions, pro	tective equipment and emergency procedures
For non-emergency personnel	: No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. In the case of aerosols being ruptured, care should be taken due to the rapid escape of the pressurized contents and propellant. If a large number of containers are ruptured, treat as a bulk material spillage according to the instructions in the clean-up section. Do not touch or walk through spilled material. Shut off all ignition sources. No flares, smoking or flames in hazard area. Avoid breathing vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
6.2 Environmental precautions	: Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large quantities. Collect spillage.
6.3 Methods and materials for	containment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product.
6.4 Reference to other sections	: See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information.

# **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing gas. Avoid breathing vapor or mist. Avoid release to the environment. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Store and use away from heat, sparks, open flame or any other ignition source. Use explosion-proof electrical (ventilating, lighting and material handling) equipment. Use only non-sparking tools. Empty containers retain product residue and can be hazardous.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

#### 7.2 Conditions for safe storage, including any incompatibilities

Date of issue/Date of revision	: 5/12/2025	Date of previous issue	: 2/19/2025	Version : 1.2	5/16
--------------------------------	-------------	------------------------	-------------	---------------	------

# **SECTION 7: Handling and storage**

Store in accordance with local regulations. Store away from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

#### Seveso Directive - Reporting thresholds

#### Danger criteria

Category	Notification and MAPP threshold	Safety report threshold
P3a	150 tonne	500 tonne
E1	100 tonne	200 tonne

#### 7.3 Specific end use(s)

Recommendations	: Not available.
Industrial sector specific solutions	: Not available.

# **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

#### 8.1 Control parameters

#### Occupational exposure limits

Product/ingredient name	Exposure limit values

cyclohexane	<ul> <li>DFG BEI-values list (Germany, 7/2022)</li> <li>BEI: 150 mg/g creatinine, 1,2-cyclohexanediol (after hydrolysis)</li> <li>[in urine]. Sampling time: for long-term exposures: at the end of the shift after several shifts.</li> <li>TRGS 903 - BEI Values (Germany, 2/2022)</li> <li>BEI: 150 mg/g creatinine, 1,2-cyclohexanediol (after hydrolysis)</li> <li>[in urine]. Sampling time: end of exposure or end of shift; for long-term exposures: at the end of shift after several shifts.</li> </ul>

Date of issue/Date of revision

# **SECTION 8: Exposure controls/personal protection**

Recommended monitoring procedures	: Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.
--------------------------------------	--

#### **DNELs/DMELs**

Product/ingredient name	Туре	Exposure	Value	Population	Effects
cyclohexane	DNEL	Long term Oral	59.4 mg/ kg bw/day	General population	Systemic
	DNEL	Long term Inhalation	206 mg/m <sup>3</sup>	General population	Local
	DNEL	Long term Inhalation	206 mg/m³	General population	Systemic
	DNEL	Short term Inhalation	412 mg/m <sup>3</sup>	General population	Local
	DNEL	Short term Inhalation	412 mg/m <sup>3</sup>	General population	Systemic
	DNEL	Long term Inhalation	700 mg/m³	Workers	Local
	DNEL	Long term Inhalation	700 mg/m³	Workers	Systemic
	DNEL	Long term Dermal	1186 mg/ kg bw/day	General population	Systemic
	DNEL	Short term Inhalation	1400 mg/ m³	Workers	Local
	DNEL	Short term Inhalation	1400 mg/ m³	Workers	Systemic
	DNEL	Long term Dermal	2016 mg/ kg bw/day	Workers	Systemic
dimethyl ether	DNEL	Long term Inhalation	471 mg/m³	General population	Systemic
	DNEL	Long term Inhalation	1894 mg/ m³	Workers	Systemic

#### **PNECs**

No PNECs available.

#### 8.2 Exposure controls

Appropriate engineering controls

: Use only with adequate ventilation. Use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits. The engineering controls also need to keep gas, vapor or dust concentrations below any lower explosive limits. Use explosion-proof ventilation equipment.

#### Individual protection measures

Date of issue/Date of revision

: 2/19/2025

## **SECTION 8: Exposure controls/personal protection**

	P P
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.
Eye/face protection	: Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.
Skin protection	
Hand protection	: Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. Recommended : 1 - 4 hours (breakthrough time): Protective gloves made of nitrile rubber (material thickness of 0,4 mm); EN 374-5 Cat. III 4 - 8 hours (breakthrough time): Protective gloves made of Viton®/ butyl rubber (material thickness of 0,7 mm); EN388 Cat.II / EN374 Cat.III / EN374-2
Body protection	: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. When there is a risk of ignition from static electricity, wear anti-static protective clothing. For the greatest protection from static discharges, clothing should include anti-static overalls, boots and gloves. Refer to European Standard EN 1149 for further information on material and design requirements and test methods.
Other skin protection	: Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	: Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. Recommended : organic vapor (Type AX) and particulate filter
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

# **SECTION 9: Physical and chemical properties**

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

#### 9.1 Information on basic physical and chemical properties

#### Specific target organ toxicity (single exposure)

Product/ingredient name	Category	Route of exposure	Target organs
cyclohexane	Category 3	-	Narcotic effects

#### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Product/ingredient name	Result	
cyclohexane	ASPIRATION HAZARD - Category 1	

Information on the likely routes of exposure	:	Not available.
Potential acute health effects	2	
Eye contact	:	No known significant effects or critical hazards.
Inhalation	:	Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness.
Skin contact	:	Causes skin irritation.
Ingestion	:	Can cause central nervous system (CNS) depression.
Symptoms related to the phy	<u>sio</u>	cal, chemical and toxicological characteristics

Eye contact

: Adverse symptoms may include the following: pain or irritation watering

redness

# **SECTION 11: Toxicological information**

Inhalation	: Adverse symptoms may include the following: respiratory tract irritation coughing nausea or vomiting headache drowsiness/fatigue dizziness/vertigo unconsciousness
Skin contact	: Adverse symptoms may include the following: irritation redness
Ingestion	: No specific data.

#### Delayed and immediate effects and also chronic effects from short and long term exposure

Short term exposure	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
<u>Long term exposure</u>	
Potential immediate effects	: Not available.
Potential delayed effects	: Not available.
Potential chronic health effe	ects
Not available.	
Conclusion/Summary	: Not available.
General	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental effects	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.

#### 11.2 Information on other hazards

11.2.1 Endocrine disrupting properties

Not available.

#### 11.2.2 Other information

Not available.

# **SECTION 12: Ecological information**

#### 12.1 Toxicity

Product/ingredient name	Result	Species	Exposure
cyclohexane	Acute LC50 4530 µg/l Fresh water	Fish - Pimephales promelas	96 hours
0 l /0	· N. C. S. B. D. L.	·	

**Conclusion/Summary** : Not available.

#### 12.2 Persistence and degradability

**Conclusion/Summary** : Not available.

#### 12.3 Bioaccumulative potential

Date of issue/Date of revision

<b>SECTION 12: Ecological informa</b>	ation
---------------------------------------	-------

Product/ingredient name	LogPow	BCF	Potential
cyclohexane	3.44	167	Low
dimethyl ether	0.07	-	Low

12.4 Mobility in soil	
Soil/water partition coefficient (Koc)	: Not available.
Mobility	: Not available.

#### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

#### 12.6 Endocrine disrupting properties

Not available.

#### 12.7 Other adverse effects

No known significant effects or critical hazards.

#### SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 13.1 Waste treatment methods

#### Product

Methods of disposal	: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.
Hazardous waste	: Yes.
