SAFETY DATA SHEET

Welding Protection Anti-Spatter

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

| 1.1 Product identifier | |
|------------------------|-----------------------------------|
| Product name | : Welding Protection Anti-Spatter |
| UFI | : TMX1-H02A-100K-UFD8 |
| Product code | : 150501 |
| Color | : White. |
| Product type | : Liquid. |

1.2 Relevant identified uses of the substance or mixture and uses advised against

| Identified uses | |
|------------------------------|--------|
| Welding-soldering-Flux agent | |
| Uses advised against | Reason |
| 5 | |

1.3 Details of the supplier of the safety data sheet

| WEICON GmbH & Co. KG | |
|--|------------------|
| Königsberger Str. 255, | |
| 48157 Münster, Germany | |
| phone:+49 251 93220, | |
| email: info@weicon.de, | |
| URL: www.weicon.de | |
| e-mail address of person responsible for this SDS | : msds@weicon.de |

1.4 Emergency telephone number

National advisory body/Poison Center

| Telephone number | : EMERGENCY CONTACT – UK, UAE, South Africa (24h): Tel: ++44 1865 407333 (English) |
|------------------|---|
| | TRĂNSPORT EMERGENCY CONTACT - UK, UAE, South Africa (24h): Tel: ++44 1865 407333 (English) |

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition : Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Not classified.

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 11 for more detailed information on health effects and symptoms.

| 2.2 Label elements | | | | | |
|--------------------------------|---------------|--|-------------|-----------------------|------|
| Signal word | : No signal w | vord. | | | |
| Hazard statements | : No known s | significant effects or critic | al hazards. | | |
| Precautionary statements | | | | | |
| General | | edical advice is needed, p out of reach of children | | ner or label at hand. | |
| Date of issue/Date of revision | : 7/18/2025 | Date of previous issue | : 7/8/2025 | Version : 5 | 1/12 |

SECTION 2: Hazards identification

| Prevention | : | Not applicable. |
|---|---|---|
| Response | : | Not applicable. |
| Storage | : | Not applicable. |
| Disposal | : | Not applicable. |
| Supplemental label elements | : | Not applicable. |
| Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles | : | Not applicable. |
| 2.3 Other hazards | | |
| Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII | : | This mixture does not contain any substances that are assessed to be a PBT or a vPvB. |
| Other hazards which do not result in classification | : | None known. |

SECTION 3: Composition/information on ingredients

| 3.2 Mixtures | : Mixture | | | | |
|---|----------------------------------|---------|---|---|------|
| Product/ingredient name | Identifiers | % | Classification | Specific Conc. Limits, M-factors and ATEs | Туре |
| Alcohols, C16-18, ethoxylated propoxylated | EC: 614-209-5 CAS: 68002-96-0 | ≥3 - ≤5 | Aquatic Chronic 3, H412 | - | [1] |
| White mineral oil (petroleum) | EC: 232-455-8 CAS: 8042-47-5 | ≥3 - ≤5 | Not classified. | - | [2] |
| | | | See Section 16 for the full text of the H statements declared above. | | |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

<u>Type</u>

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

4.1 Description of first aid measures

| Eye contact | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
|--------------|---|
| Inhalation | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |

Date of issue/Date of revision

2/12

| Ingestion | : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
|----------------------------|--|
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. |

| Eye contact | : No specific data. |
|--------------|---------------------|
| Inhalation | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion | : No specific data. |
| | |

4.3 Indication of any immediate medical attention and special treatment needed

| Notes to physician | : Treat symptomatically. Contact poison treatment specialist immediately if large | |
|---------------------|---|--|
| | quantities have been ingested or inhaled. | |
| Specific treatments | : No specific treatment. | |

SECTION 5: Firefighting measures

| • | | |
|---|--|--------------|
| 5.1 Extinguishing media | | |
| Suitable extinguishing media | se an extinguishing agent suitable for the surrounding fire. | |
| Unsuitable extinguishing media | one known. | |
| 5.2 Special hazards arising f | e substance or mixture | |
| Hazards from the substance or mixture | a fire or if heated, a pressure increase will occur and the container may bu | urst. |
| Hazardous combustion products | o specific data. | |
| 5.3 Advice for firefighters | | |
| Special protective actions for fire-fighters | omptly isolate the scene by removing all persons from the vicinity of the in ere is a fire. No action shall be taken involving any personal risk or withou itable training. | |
| Special protective equipment for fire-fighters | re-fighters should wear appropriate protective equipment and self-containe eathing apparatus (SCBA) with a full face-piece operated in positive press ode. Clothing for fire-fighters (including helmets, protective boots and glov informing to European standard EN 469 will provide a basic level of protec emical incidents. | sure ves) |

SECTION 6: Accidental release measures

| 6.1 Personal precautions, pro | ote | ctive equipment and emergency procedures |
|--------------------------------|-----|--|
| For non-emergency personnel | : | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Put on appropriate personal protective equipment. |
| For emergency responders | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel". |

SECTION 6: Accidental release measures

| 6.2 Environmental precautions | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). |
|-------------------------------|--|
| 6.3 Methods and mat | terials for containment and cleaning up |
| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |

| Large spill | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. |
|-------------|--|
| | licensed waste disposal contractor. |

```
    6.4 Reference to other sections
    See Section 1 for emergency contact information.
    See Section 8 for information on appropriate personal protective equipment.
    See Section 13 for additional waste treatment information.
```

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

| Protective measures Advice on general occupational hygiene | Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |
|--|--|
| | mormation of Hygiene measures. |

7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

| 7.3 Specific end use(s) | |
|----------------------------|------------------|
| Recommendations | : Not available. |
| Industrial sector specific | : Not available. |
| solutions | |

SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

8.1 Control parameters

Occupational exposure limits

| SECTION 8: Exposur | е | controls/p | ersonal protection | | | |
|---|------|--|--|--|--|--|
| Product/ingredient name White mineral oil (petroleum) | | | Exposure limit values | | | |
| | | | TRGS 900 OEL (Germany, 4/2023). PEAK: 20 mg/m³ 15 minutes. Form: alveolar fraction TWA: 5 mg/m³ 8 hours. Form: alveolar fraction DFG MAC-values list (Germany, 7/2022). PEAK: 20 mg/m³, 4 times per shift, 15 minutes. Form: respirable fraction TWA: 5 mg/m³ 8 hours. Form: respirable fraction | | | |
| Biological exposure indices No exposure indices known. | 5 | | | | | |
| Recommended monitoring procedures | : | European Star assessment of values and me atmospheres - of exposure to (Workplace atr for the measur | uld be made to monitoring standards, such as the following: dard EN 689 (Workplace atmospheres - Guidance for the exposure by inhalation to chemical agents for comparison with limit asurement strategy) European Standard EN 14042 (Workplace Guide for the application and use of procedures for the assessment chemical and biological agents) European Standard EN 482 mospheres - General requirements for the performance of procedures ement of chemical agents) Reference to national guidance methods for the determination of hazardous substances will also be | | | |
| DNELs/DMELs No DNELs/DMELs available | э. | · | | | | |
| PNECs No PNECs available. | | | | | | |
| .2 Exposure controls | | | | | | |
| Appropriate engineering controls | : | Good general contaminants. | ventilation should be sufficient to control worker exposure to airborn | | | |
| ndividual protection measu | ires | 5 | | | | |
| Hygiene measures | : | before eating, Appropriate te Wash contam | forearms and face thoroughly after handling chemical products, smoking and using the lavatory and at the end of the working period chniques should be used to remove potentially contaminated clothin inated clothing before reusing. Ensure that eyewash stations and s are close to the workstation location. | | | |
| Eye/face protection | : | assessment ir gases or dusts | ar complying with an approved standard should be used when a risk idicates this is necessary to avoid exposure to liquid splashes, mists s. If contact is possible, the following protection should be worn, sessment indicates a higher degree of protection: safety glasses wit | | | |
| Skin protection | | | | | | |
| Hand protection | : | be worn at all this is necessa gloves made o 8 hours (break | stant, impervious gloves complying with an approved standard shou times when handling chemical products if a risk assessment indicate ary. Recommended : 1 - 4 hours (breakthrough time): Protective of nitrile rubber (material thickness of 0,4 mm); EN 374-5 Cat. III ; 4 through time): Protective gloves made of Viton®/ butyl rubber ness of 0,7 mm); EN388 Cat.II / EN374 Cat.III / EN374-2 | | | |
| Body protection | : | Personal prote being perform | ective equipment for the body should be selected based on the task ed and the risks involved and should be approved by a specialist g this product. | | | |
| Other skin protection | : | selected base | otwear and any additional skin protection measures should be d on the task being performed and the risks involved and should be specialist before handling this product. | | | |
| Respiratory protection | : | In case of insu | ifficient ventilation, wear suitable respiratory equipment. | | | |

Respiratory protection : In case of insufficient ventilation, wear suitable respiratory equipment.

Date of issue/Date of revision

Welding Protection Anti-Spatter

SECTION 8: Exposure controls/personal protection

Environmental exposure controls : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and chemical properties

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

9.1 Information on basic physical and chemical properties

| <u>Appearance</u> | | |
|------------------------------------|---|-----------------------------------|
| Physical state | : | Liquid. |

SECTION 12: Ecological information

Mobility

: Not available.

12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

12.6 Endocrine disrupting properties

Not available.

12.7 Other adverse effects

No known significant effects or critical hazards.

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

Product

| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |
|---------------------|---|
|---------------------|---|

Hazardous waste : Yes.

European waste catalogue (EWC)

| Waste code | Waste designation | | |
|---------------------|---|---|--|
| 12 01 99 | wastes not otherwise specified | | |
| Packaging | - | | |
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. | | |
| Type of packaging | | European waste catalogue (EWC) | |
| Can | 15 01 10* | 15 01 10* packaging containing residues of or contaminated by hazardous substances | |
| Special precautions | This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. | | |
