# SAFETY DATA SHEET

**Corro-Protection** 

# SECTION 1: Identification of the substance/mixture and of the company/ undertaking

### 1.1 Product identifier

| Product name | : Corro-Protection    |
|--------------|-----------------------|
| UFI          | : K2Q0-8052-H00D-U5R9 |
| Product code | : 155550              |
| Color        | : White.              |

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

|   | Identified uses |
|---|-----------------|
| Surface treatment products Corrosion inhibitor. |                 |

### 1.3 Details of the supplier of the safety data sheet

| WEICON GmbH & Co. KG<br>Königsberger Str. 255        |                  |
|--|------------------|
| 48157 Münster  |                  |
| Germany  |                  |
| Phone: +49 251 93220                                 |                  |
| Fax: +49(0)251 / 9322 - 244                          |                  |
| Internet: www.weicon.de                              |                  |
| e-mail address of person<br>responsible for this SDS | : msds@weicon.de |

### 1.4 Emergency telephone number

| Telephone number | : EMERGENCY CONTACT – UK, UAE, South Africa (24h): Tel: ++44 1865 407333<br>(English)      |
|------------------|--|
|                  | TRANSPORT EMERGENCY CONTACT - UK, UAE, South Africa (24h): Tel: ++44 1865 407333 (English) |

# **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

**Product definition** : Mixture

### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Flam. Liq. 2, H225 Skin Irrit. 2, H315 STOT SE 3, H336 Asp. Tox. 1, H304 Aquatic Chronic 2, H411

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

### 2.2 Label elements

Signal word

Hazard pictograms

| <b>SECTION 2: Hazards</b>   | ic | lentification  |
|---|----|--|
| Hazard statements   | :  | <ul> <li>H225 - Highly flammable liquid and vapor.</li> <li>H304 - May be fatal if swallowed and enters airways.</li> <li>H315 - Causes skin irritation.</li> <li>H336 - May cause drowsiness or dizziness.</li> <li>H411 - Toxic to aquatic life with long lasting effects.</li> </ul>  |
| Precautionary statements  |    |  |
| Prevention  | :  | <ul> <li>P280 - Wear protective gloves.</li> <li>P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.</li> <li>P271 - Use only outdoors or in a well-ventilated area.</li> <li>P273 - Avoid release to the environment.</li> <li>P261 - Avoid breathing vapor.</li> <li>P264 - Wash thoroughly after handling.</li> </ul> |
| Response  | :  | <ul> <li>P391 - Collect spillage.</li> <li>P304 + P312 - IF INHALED: Call a POISON CENTER or doctor if you feel unwell.</li> <li>P301 + P310, P331 - IF SWALLOWED: Immediately call a POISON CENTER or doctor. Do NOT induce vomiting.</li> <li>P362 + P364 - Take off contaminated clothing and wash it before reuse.</li> </ul>  |
| Storage   | :  | P405 - Store locked up.<br>P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.  |
| Disposal  | :  | P501 - Dispose of waste according to applicable legislation.   |
| Hazardous ingredients   | :  | Hydrocarbons, C6-C7, n-alkanes, isoalkanes, cyclics, <5% n-hexane<br>Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics,<2% aromatics  |
| Supplemental label<br>elements  | :  | Not applicable.  |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | :  | Not applicable.  |
| 2.3 Other hazards   |    |  |
| Product meets the criteria<br>for PBT or vPvB according<br>to Regulation (EC) No.<br>1907/2006, Annex XIII  | :  | This mixture does not contain any substances that are assessed to be a PBT or a vPvB.  |
| Other hazards which do not result in classification   | :  | None known.  |

# SECTION 3: Composition/information on ingredients

| Product/ingredient name  | Identifiers  | %         | Classification  | Specific Conc.<br>Limits, M-factors<br>and ATEs | Туре |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

# **SECTION 4: First aid measures**

### 4.1 Description of first aid measures

| Eye contact                | : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.   |
|----------------------------|---|
| Inhalation                 | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>If it is suspected that fumes are still present, the rescuer should wear an appropriate<br>mask or self-contained breathing apparatus. If not breathing, if breathing is irregular<br>or if respiratory arrest occurs, provide artificial respiration or oxygen by trained<br>personnel. It may be dangerous to the person providing aid to give mouth-to-mouth<br>resuscitation. Get medical attention. If necessary, call a poison center or physician.<br>If unconscious, place in recovery position and get medical attention immediately.<br>Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or<br>waistband.                 |
| Skin contact               | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.  |
| Ingestion                  | : Get medical attention immediately. Call a poison center or physician. Wash out<br>mouth with water. Remove dentures if any. If material has been swallowed and the<br>exposed person is conscious, give small quantities of water to drink. Stop if the<br>exposed person feels sick as vomiting may be dangerous. Aspiration hazard if<br>swallowed. Can enter lungs and cause damage. Do not induce vomiting. If<br>vomiting occurs, the head should be kept low so that vomit does not enter the lungs.<br>Never give anything by mouth to an unconscious person. If unconscious, place in<br>recovery position and get medical attention immediately. Maintain an open airway.<br>Loosen tight clothing such as a collar, tie, belt or waistband. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.  |

### 4.2 Most important symptoms and effects, both acute and delayed <u>Over-exposure signs/symptoms</u>

# **SECTION 4: First aid measures**

| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
|--------------|---|
| Inhalation   | : Adverse symptoms may include the following:<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>redness  |
| Ingestion    | : Adverse symptoms may include the following: nausea or vomiting  |

### 4.3 Indication of any immediate medical attention and special treatment needed

| Specific treatments | : No specific treatment.  |
|---------------------|---|
| Notes to physician  | : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |

# SECTION 5: Firefighting measures

| 5.1 Extinguishing media                           |  |
|---|--|
| Suitable extinguishing media                      | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.   |
| Unsuitable extinguishing media                    | : Do not use water jet.  |
| 5.2 Special hazards arising f                     | rom the substance or mixture   |
| Hazards from the substance or mixture             | : Highly flammable liquid and vapor. Runoff to sewer may create fire or explosion hazard. In a fire or if heated, a pressure increase will occur and the container may burst, with the risk of a subsequent explosion. This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous combustion<br>products                  | : No specific data.  |
| 5.3 Advice for firefighters                       |  |
| Special protective actions for fire-fighters      | : Promptly isolate the scene by removing all persons from the vicinity of the incident if<br>there is a fire. No action shall be taken involving any personal risk or without<br>suitable training. Move containers from fire area if this can be done without risk.<br>Use water spray to keep fire-exposed containers cool.  |
| Special protective<br>equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.  |

# **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

| For non-emergency<br>personnel | <ul> <li>No action shall be taken involving any personal risk or without suitable training.<br/>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br/>entering. Do not touch or walk through spilled material. Shut off all ignition sources.<br/>No flares, smoking or flames in hazard area. Avoid breathing vapor or mist.<br/>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br/>inadequate. Put on appropriate personal protective equipment.</li> </ul> |
|--------------------------------|--|
|                                |  |

| Date of issue/Date of revision | : 10/20/2022 | Date of previous issue | : 10/19/2022 | Version : 4.01 | 4/15 |  |
|--------------------------------|--------------|------------------------|--------------|----------------|------|--|
|--------------------------------|--------------|------------------------|--------------|----------------|------|--|

### **SECTION 6: Accidental release measures**

| For emergency responders  | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
|---|---|--|
| 6.2 Environmental precautions                                   | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways,<br>drains and sewers. Inform the relevant authorities if the product has caused<br>environmental pollution (sewers, waterways, soil or air). Water polluting material.<br>May be harmful to the environment if released in large quantities. Collect spillage.    |
| 6.3 Methods and materials<br>for containment and<br>cleaning up | : | Stop leak if without risk. Move containers from spill area. Use spark-proof tools and explosion-proof equipment. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor. |
| 6.4 Reference to other sections                                 | : | See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.  |

# **SECTION 7: Handling and storage**

The information in this section contains generic advice and guidance.

### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8). Do not swallow.<br>Avoid contact with eyes, skin and clothing. Avoid breathing vapor or mist. Avoid<br>release to the environment. Use only with adequate ventilation. Wear appropriate<br>respirator when ventilation is inadequate. Do not enter storage areas and confined<br>spaces unless adequately ventilated. Keep in the original container or an approved<br>alternative made from a compatible material, kept tightly closed when not in use.<br>Store and use away from heat, sparks, open flame or any other ignition source. Use<br>explosion-proof electrical (ventilating, lighting and material handling) equipment.<br>Use only non-sparking tools. Take precautionary measures against electrostatic<br>discharges. Empty containers retain product residue and can be hazardous. Do not<br>reuse container. |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |

### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in a segregated and approved area. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Eliminate all ignition sources. Separate from oxidizing materials. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Industrial sector specific : Not available. solutions

# **SECTION 8: Exposure controls/personal protection**

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

### 8.1 Control parameters

### **Occupational exposure limits**

| Product/ingredien                        | t name   |  | Exposure limit va   | lues  |
|--|--|--|---|---|
| Hydrocarbons, C9 aromatics               |  | TRGS 900 OEL (G<br>AGW: 100 mg/m <sup>3</sup>  | ermany).  |   |
| Recommended monitoring procedures        | : If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectivene<br>of the ventilation or other control measures and/or the necessity to use respirator<br>protective equipment. Reference should be made to monitoring standards, such<br>the following: European Standard EN 689 (Workplace atmospheres - Guidance t<br>the assessment of exposure by inhalation to chemical agents for comparison with<br>limit values and measurement strategy) European Standard EN 14042 (Workpla<br>atmospheres - Guide for the application and use of procedures for the assessme<br>of exposure to chemical and biological agents) European Standard EN 482<br>(Workplace atmospheres - General requirements for the performance of procedu<br>for the measurement of chemical agents) Reference to national guidance<br>documents for methods for the determination of hazardous substances will also b<br>required. |  |   | etermine the effectiveness<br>cessity to use respiratory<br>itoring standards, such as<br>mospheres - Guidance for<br>ents for comparison with<br>ard EN 14042 (Workplace<br>dures for the assessment<br>Standard EN 482<br>performance of procedures<br>ational guidance |

# **SECTION 8: Exposure controls/personal protection**

| Body protection                 | : Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product. When there is a risk of ignition from static electricity,<br>wear anti-static protective clothing. For the greatest protection from static<br>discharges, clothing should include anti-static overalls, boots and gloves. Refer to<br>European Standard EN 1149 for further information on material and design<br>requirements and test methods. |
|---------------------------------|--|
| Other skin protection           | : Appropriate footwear and any additional skin protection measures should be<br>selected based on the task being performed and the risks involved and should be<br>approved by a specialist before handling this product.  |
| Respiratory protection          | : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. Recommended : organic vapor (Type AX) and particulate filter  |
| Environmental exposure controls | : Emissions from ventilation or work process equipment should be checked to<br>ensure they comply with the requirements of environmental protection legislation.<br>In some cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels.  |

# **SECTION 9: Physical and chemical properties**

### 9.1 Information on basic physical and chemical properties

| <u>Appearance</u>                               |  |
|---|--|
| Physical state                                  | : Liquid.  |
| Color   | : White.   |
| Odor  | : Benzene-like.  |
| Odor threshold                                  | : Not available.   |
| Melting point/freezing point                    | : Not available.   |
| Initial boiling point and boiling range         | : 88 to 106°C (190.4 to 222.8°F)   |
| Flammability                                    | : Flammable in the presence of the following materials or conditions: open flames, sparks and static discharge and heat. |
| Upper/lower flammability or<br>explosive limits | : Lower: 0.5%<br>Upper: 7.7%   |
| Flash point                                     | : Closed cup: -9°C (15.8°F)<br>Open cup: Not applicable.   |
| Auto-ignition temperature                       | : Not applicable.  |
| Decomposition temperature                       | : Not available.   |
| рН  | : Not applicable.  |
| Viscosity                                       | : Dynamic (room temperature): 800 mPa⋅s<br>Kinematic (40°C): <20.5 mm²/s   |
| Solubility(ies)                                 | :  |
| Not available.                                  |  |
| Solubility in water                             | : Not available.   |
| Miscible with water                             | : No.  |
| Partition coefficient: n-octanol/<br>water      | : Not applicable.  |
| Vapor pressure                                  | : 24.6 kPa (184.52 mm Hg)  |
| Relative density                                | : Not available.   |
| Density   | : 0.79 g/cm³ [20°C (68°F)]   |
| Vapor density                                   | : Not available.   |
| Explosive properties                            | : Not available.   |
| Oxidizing properties                            | : Not available.   |

| <b>SECTION 10: Stabilit</b>                | y and reactivity  |
| 10.1 Reactivity                            | : No specific test data related to reactivity available for this product or its ingredients.  |
| 10.2 Chemical stability                    | : The product is stable.  |
| 10.3 Possibility of<br>hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| 10.4 Conditions to avoid                   | : Avoid all possible sources of ignition (spark or flame). Do not pressurize, cut, weld, braze, solder, drill, grind or expose containers to heat or sources of ignition. |
| 10.5 Incompatible materials                | : Reactive or incompatible with the following materials: oxidizing materials  |
| 10.6 Hazardous<br>decomposition products   | : Forms explosive mixtures with air. May explode when heated.   |

# **SECTION 11: Toxicological information**

### 11.1 Information on toxicological effects

| Acute toxicity<br>Conclusion/Summary<br>Acute toxicity estimates<br>Not available. | : Not available.              |
|--|-------------------------------|
| Irritation/Corrosion   |                               |
| Conclusion/Summary   | : Not available.              |
| Sensitization  |                               |
| Conclusion/Summary   | : Not available.              |
| Mutagenicity   |                               |
| Conclusion/Summary   | : Not available.              |
| <b>Carcinogenicity</b>   |                               |
| Conclusion/Summary   | : Not available.              |
| Reproductive toxicity  |                               |
| Conclusion/Summary   | : Not available.              |
| <u>Teratogenicity</u>  |                               |
| Conclusion/Summary   | : Not available.              |
| Specific target organ toxic  | <u>city (single exposure)</u> |

# **SECTION 11: Toxicological information**

| Product/ingredient name   | Category   | Route of exposure | Target organs                |
|---|------------|-------------------|------------------------------|
| Hydrocarbons, C6-C7, n-alkanes, isoalkanes, cyclics, <5% n-hexane   | Category 3 | -                 | Narcotic effects             |
| Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics, <2% aromatics | Category 3 | -                 | Narcotic effects             |
| Hydrocarbons, C9 aromatics  | Category 3 | -                 | Respiratory tract irritation |
|   | Category 3 |                   | Narcotic effects             |

### Specific target organ toxicity (repeated exposure)

Not available.

### Aspiration hazard

| Product/ingredient name   | Result                         |
|---|--------------------------------|
| Hydrocarbons, C6-C7, n-alkanes, isoalkanes, cyclics, <5% n-<br>hexane | ASPIRATION HAZARD - Category 1 |
| Hydrocarbons, C9-C11, n-alkanes, isoalkanes, cyclics,<2% aromatics    | ASPIRATION HAZARD - Category 1 |
| Hydrocarbons, C9 aromatics  | ASPIRATION HAZARD - Category 1 |
| Hydrocarbons, C11-C14, n-alkanes, isoalkanes, cyclics,<2% aromatics   | ASPIRATION HAZARD - Category 1 |

# **Information on the likely** : Not available.

routes of exposure

| Potential acute health effects | 5 |  |
|--------------------------------|---|--|
| Eye contact                    | : | No known significant effects or critical hazards.  |
| Inhalation                     | : | Can cause central nervous system (CNS) depression. May cause drowsiness or dizziness.            |
| Skin contact                   | : | Causes skin irritation.  |
| Ingestion                      | : | Can cause central nervous system (CNS) depression. May be fatal if swallowed and enters airways. |

### Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact  | : Adverse symptoms may include the following:<br>pain or irritation<br>watering<br>redness  |
|--------------|---|
| Inhalation   | : Adverse symptoms may include the following:<br>nausea or vomiting<br>headache<br>drowsiness/fatigue<br>dizziness/vertigo<br>unconsciousness |
| Skin contact | : Adverse symptoms may include the following:<br>irritation<br>redness  |
| Ingestion    | : Adverse symptoms may include the following:<br>nausea or vomiting   |

### Delayed and immediate effects and also chronic effects from short and long term exposure

| Date of issue/Date of revision | : 10/20/2022 Date of previous issue | : 10/19/2022 | Version : 4.01 | 9/15 |

| Conclusion/Summary             | : Not available.                                    |
| General                        | : No known significant effects or critical hazards. |
| Carcinogenicity                | : No known significant effects or critical hazards. |
| Mutagenicity                   | : No known significant effects or critical hazards. |
| Teratogenicity                 | : No known significant effects or critical hazards. |
| Developmental effects          | : No known significant effects or critical hazards. |
| Fertility effects              | : No known significant effects or critical hazards. |

### 11.2 Information on other hazards

11.2.1 Endocrine disrupting properties

Not available.

11.2.2 Other information

Not available.

# **SECTION 12: Ecological information**

### 12.1 Toxicity

**Conclusion/Summary** : Not available.

### 12.2 Persistence and degradability

**Conclusion/Summary** : Not available.

### 12.3 Bioaccumulative potential

Not available.

| 12.4 Mobility in soil |                  |
|-----------------------|------------------|
| Soil/water partition  | : Not available. |
| coefficient (Koc)     |                  |
| Mobility              | : Not available. |

### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

### 12.6 Endocrine disrupting properties

Not available.

### 12.7 Other adverse effects

No known significant effects or critical hazards.

# **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 13.1 Waste treatment methods

| <u>Product</u>      |   |
|---------------------|---|
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation and<br>any regional local authority requirements. Dispose of surplus and non-recyclable<br>products via a licensed waste disposal contractor. Waste should not be disposed of<br>untreated to the sewer unless fully compliant with the requirements of all authorities<br>with jurisdiction. |
| Hazardous waste     | : The classification of the product may meet the criteria for a hazardous waste.  |

### European waste catalogue (EWC)

| Waste code | Waste designation  |
|------------|--|
| 08 04 09*  | waste adhesives and sealants containing organic solvents or other hazardous substances |

### Packaging

Methods of disposal

: The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

| Type of packaging   | European waste catalogue (EWC)   |
|---------------------|--|
| 15 01 10*           | packaging containing residues of or contaminated by hazardous substances   |
| Special precautions | : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Vapor from product residues may create a highly flammable or explosive atmosphere inside the container. Do not cut, weld or grind used containers unless they have been cleaned thoroughly internally. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |

# **SECTION 14: Transport information**

|                                    | ADR/RID   | IMDG  | ΙΑΤΑ   |
|------------------------------------|---|---|--|

### Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

| Classification          | Justification         |
|-------------------------|-----------------------|
| Flam. Liq. 2, H225      | On basis of test data |
| Skin Irrit. 2, H315     | Calculation method    |
| STOT SE 3, H336         | Calculation method    |
| Asp. Tox. 1, H304       | Calculation method    |
| Aquatic Chronic 2, H411 | Calculation method    |

### Full text of abbreviated H statements

| H225   | Highly flammable liquid and vapor.                    |
|--------|---|
| H226   | Flammable liquid and vapor.                           |
| H304   | May be fatal if swallowed and enters airways.         |
| H315   | Causes skin irritation.                               |
| H335   | May cause respiratory irritation.                     |
| H336   | May cause drowsiness or dizziness.                    |
| H411   | Toxic to aquatic life with long lasting effects.      |
| EUH066 | Repeated exposure may cause skin dryness or cracking. |
