

# SAFETY DATA SHEET

WEICONLOCK AN 301-48

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### 1.1 Product identifier

**Product name** : WEICONLOCK AN 301-48  
**UFI** : W0T0-F0MJ-X006-ASJG  
**Product code** : 301480  
**Color** : Green.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

| Identified uses     |
|---------------------|
| Adhesives-Anaerobic |

### 1.3 Details of the supplier of the safety data sheet

WEICON GmbH & Co. KG  
Königsberger Str. 255  
48157 Münster  
Germany  
Phone: +49 251 93220  
Fax: +49(0)251 / 9322 - 244  
Internet: www.weicon.de

**e-mail address of person responsible for this SDS** : msds@weicon.de

### 1.4 Emergency telephone number

**Telephone number** : EMERGENCY CONTACT – UK, UAE, South Africa (24h): Tel: ++44 1865 407333 (English)  
TRANSPORT EMERGENCY CONTACT - UK, UAE, South Africa (24h): Tel: ++44 1865 407333 (English)

## SECTION 2: Hazards identification

### 2.1 Classification of the substance or mixture

**Product definition** : Mixture

#### Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Skin Irrit. 2, H315  
Eye Dam. 1, H318  
Skin Sens. 1, H317  
STOT SE 3, H335

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

### 2.2 Label elements

**Hazard pictograms** :

**Signal word** : Danger

## SECTION 2: Hazards identification

|   |   |
|---|---|
| <b>Hazard statements</b>  | : H315 - Causes skin irritation.<br>H317 - May cause an allergic skin reaction.<br>H318 - Causes serious eye damage.<br>H335 - May cause respiratory irritation.  |
| <b>Precautionary statements</b>   |   |
| <b>Prevention</b>   | : P280 - Wear protective gloves. Wear eye or face protection.<br>P271 - Use only outdoors or in a well-ventilated area.<br>P261 - Avoid breathing vapor.<br>P264 - Wash thoroughly after handling.  |
| <b>Response</b>   | : P304 + P312 - IF INHALED: Call a POISON CENTER or doctor if you feel unwell.<br>P362 + P364 - Take off contaminated clothing and wash it before reuse.<br>P302 + P352 - IF ON SKIN: Wash with plenty of water.<br>P333 + P313 - If skin irritation or rash occurs: Get medical advice or attention.<br>P305 + P351 + P338, P310 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.<br>Immediately call a POISON CENTER or doctor. |
| <b>Storage</b>  | : P405 - Store locked up.<br>P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.   |
| <b>Disposal</b>   | : P501 - Dispose of waste according to applicable legislation.  |
| <b>Hazardous ingredients</b>  | : 2-Propenoic acid, 2-methyl-, monoester with 1,2-propanediol<br>acrylic acid<br>$\alpha,\alpha$ -dimethylbenzyl hydroperoxide  |
| <b>Supplemental label elements</b>  | : Not applicable.   |
| <b>Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles</b> | : Not applicable.   |

### 2.3 Other hazards

|  |   |
|--|---|
| <b>Product meets the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII</b> | : This mixture does not contain any substances that are assessed to be a PBT or a vPvB. |
| <b>Other hazards which do not result in classification</b>   | : None known.   |

## SECTION 3: Composition/information on ingredients

### 3.2 Mixtures : Mixture

| Product/ingredient name                                     | Identifiers  | %         | Classification  | Specific Conc. Limits, M-factors and ATEs   | Type    |
|---|--|-----------|---|---|---------|
| 2-Propenoic acid, 2-methyl-, monoester with 1,2-propanediol | REACH #:<br>01-2119490226-37<br>EC: 248-666-3<br>CAS: 27813-02-1                     | ≥25 - ≤50 | Skin Irrit. 2, H315<br>Eye Irrit. 2, H319<br>Skin Sens. 1, H317<br>STOT SE 3, H335  | -   | [1]     |
| acrylic acid  | REACH #:<br>01-2119452449-31<br>EC: 201-177-9<br>CAS: 79-10-7<br>Index: 607-061-00-8 | ≤4        | Flam. There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

Type

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

Occupational exposure limits, if available, are listed in Section 8.

### SECTION 4: First aid measures

#### 4.1 Description of first aid measures

- Eye contact** : Get medical attention immediately. Call a poison center or physician. Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician.
- Inhalation** : Get medical attention immediately. Call a poison center or physician. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- Skin contact** : Get medical attention immediately. Call a poison center or physician. Wash with plenty of soap and water. Remove contaminated clothing and shoes. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Chemical burns must be treated promptly by a physician. In the event of any complaints or symptoms, avoid further exposure. Wash clothing before reuse. Clean shoes thoroughly before reuse.

## SECTION 4: First aid measures

- Ingestion** : Get medical attention immediately. Call a poison center or physician. Wash out mouth with water. Remove dentures if any. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Chemical burns must be treated promptly by a physician. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.
- Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

### 4.2 Most important symptoms and effects, both acute and delayed

#### Over-exposure signs/symptoms

- Eye contact** : Adverse symptoms may include the following:  
pain  
watering  
redness
- Inhalation** : Adverse symptoms may include the following:  
respiratory tract irritation  
coughing
- Skin contact** : Adverse symptoms may include the following:  
pain or irritation  
redness  
blistering may occur
- Ingestion** : Adverse symptoms may include the following:  
stomach pains

### 4.3 Indication of any immediate medical attention and special treatment needed

- Notes to physician** : Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
- Specific treatments** : No specific treatment.

## SECTION 5: Firefighting measures

### 5.1 Extinguishing media

- Suitable extinguishing media** : Use an extinguishing agent suitable for the surrounding fire.
- Unsuitable extinguishing media** : None known.

### 5.2 Special hazards arising from the substance or mixture

- Hazards from the substance or mixture** : In a fire or if heated, a pressure increase will occur and the container may burst.
- Hazardous combustion products** : Decomposition products may include the following materials:  
carbon dioxide  
carbon monoxide

### 5.3 Advice for firefighters

- Special protective actions for fire-fighters** : Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

## SECTION 5: Firefighting measures

- Special protective equipment for fire-fighters** : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

## SECTION 6: Accidental release measures

### 6.1 Personal precautions, protective equipment and emergency procedures

- For non-emergency personnel** : No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.
- For emergency responders** : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

- 6.2 Environmental precautions** : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

- 6.3 Methods and materials for containment and cleaning up** : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.

- 6.4 Reference to other sections** : See Section 1 for emergency contact information.  
See Section 8 for information on appropriate personal protective equipment.  
See Section 13 for additional waste treatment information.

## SECTION 7: Handling and storage

The information in this section contains generic advice and guidance.

### 7.1 Precautions for safe handling

- Protective measures** : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
- Advice on general occupational hygiene** : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

### 7.3 Specific end use(s)

- Recommendations** : Not available.

## SECTION 7: Handling and storage

Industrial sector specific solutions : Not available.

## SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

### 8.1 Control parameters

#### Occupational exposure limits

| Product/ingredient name | Exposure limit values   |
|-------------------------|---|
| acrylic acid            | <b>DFG MAC-values list (Germany, 10/2021).</b><br>TWA: 30 mg/m <sup>3</sup> 8 hours.<br>TWA: 10 ppm 8 hours.<br>PEAK: 10 ppm, 4 times per shift, 15 minutes.<br>PEAK: 30 mg/m <sup>3</sup> , 4 times per shift, 15 minutes.<br><b>TRGS 900 OEL (Germany, 7/2021).</b><br>TWA: 30 mg/m <sup>3</sup> 8 hours.<br>PEAK: 30 mg/m <sup>3</sup> 15 minutes.<br>TWA: 10 ppm 8 hours.<br>PEAK: 10 ppm 15 minutes. |

**Recommended monitoring procedures** : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to monitoring standards, such as the following: European Standard EN 689 (Workplace atmospheres - Guidance for the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy) European Standard EN 14042 (Workplace atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### DNELs/DMELs

| Product/ingredient name   | Type | Exposure              | Value                  | Population         | Effects  |
|---|------|-----------------------|------------------------|--------------------|----------|
| 2-Propenoic acid, 2-methyl-, monoester with 1,2-propanediol<br><br><br><br><br><br><br>acrylic acid | DNEL | Long term Oral        | 2.5 mg/kg bw/day       | General population | Systemic |
|   | DNEL | Long term Dermal      | 2.5 mg/kg bw/day       | General population | Systemic |
|   | DNEL | Long term Dermal      | 4.2 mg/kg bw/day       | Workers            | Systemic |
|   | DNEL | Long term Inhalation  | 8.8 mg/m <sup>3</sup>  | General population | Systemic |
|   | DNEL | Long term Inhalation  | 14.7 mg/m <sup>3</sup> | Workers            | Systemic |
|   | DNEL | Short term Inhalation | 3.6 mg/m <sup>3</sup>  | General population | Local    |
|   | DNEL | Long term Inhalation  | 3.6 mg/m <sup>3</sup>  | General population | Local    |
|   | DNEL | Short term Dermal     | 1 mg/cm <sup>2</sup>   | General population | Local    |

## SECTION 8: Exposure controls/personal protection

|                                  |      |                       |                       |                    |          |
|----------------------------------|------|-----------------------|-----------------------|--------------------|----------|
|                                  | DNEL | Long term Oral        | 0.4 mg/kg bw/day      | General population | Systemic |
|                                  | DNEL | Short term Oral       | 1.2 mg/kg bw/day      | General population | Systemic |
|                                  | DNEL | Short term Inhalation | 3.6 mg/m <sup>3</sup> | General population | Systemic |
|                                  | DNEL | Long term Inhalation  | 3.6 mg/m <sup>3</sup> | General population | Systemic |
|                                  | DNEL | Short term Inhalation | 30 mg/m <sup>3</sup>  | Workers            | Local    |
|                                  | DNEL | Long term Inhalation  | 30 mg/m <sup>3</sup>  | Workers            | Local    |
|                                  | DNEL | Short term Inhalation | 30 mg/m <sup>3</sup>  | Workers            | Systemic |
|                                  | DNEL | Long term Inhalation  | 30 mg/m <sup>3</sup>  | Workers            | Systemic |
| α,α-dimethylbenzyl hydroperoxide | DNEL | Long term Inhalation  | 6 mg/m <sup>3</sup>   | Workers            | Systemic |

### PNECs

No PNECs available.

## 8.2 Exposure controls

**Appropriate engineering controls** : Use only with adequate ventilation. If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.

### Individual protection measures

**Hygiene measures** : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

**Eye/face protection** : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles and/or face shield. If inhalation hazards exist, a full-face respirator may be required instead.

### Skin protection

**Hand protection** : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. Recommended : 1 - 4 hours (breakthrough time): nitrile rubber ; 4 - 8 hours (breakthrough time): Viton®/butyl rubber

**Body protection** : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

## SECTION 8: Exposure controls/personal protection

- Other skin protection** : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
- Respiratory protection** : Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. Recommended : organic vapor (Type AX) and particulate filter
- Environmental exposure controls** : Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

#### Appearance

- Physical state** : Liquid.
- Color** : Green.
- Odor** : Characteristic.
- Odor threshold** : Not available.
- Melting point/freezing point** : Not available.
- Initial boiling point and boiling range** : Not available.
- Flammability** : Not available.
- Upper/lower flammability or explosive limits** : Not available.
- Flash point** : Closed cup: >100°C (>212°F)
- Auto-ignition temperature** : Not applicable.
- Decomposition temperature** : Not available.
- pH** : Not applicable.
- Viscosity** : Dynamic: 65000 mPa·s
- Solubility(ies)** :  
Not available.
- Solubility in water** : Not available.
- Partition coefficient: n-octanol/ water** : Not applicable.

#### Vapor pressure

| Ingredient name   | Vapor Pressure at 20 °C |       |          | Vapor pressure at 50 °C |     |        |
|---|-------------------------|-------|----------|-------------------------|-----|--------|
|   | mm Hg                   | kPa   | Method   | mm Hg                   | kPa | Method |
| acrylic acid  | 2.85                    | 0.38  | OECD 104 |                         |     |        |
| methacrylic acid  | 0.73                    | 0.097 |          |                         |     |        |
| 2-Propenoic acid, 2-methyl-, monoester with 1,2-propanediol | 0.08                    | 0.011 |          |                         |     |        |
| α,α-dimethylbenzyl hydroperoxide                            | 0                       | 0     |          |                         |     |        |

- Relative density** : Not available.
- Density** : 1.1 g/cm<sup>3</sup> [25°C (77°F)]
- Vapor density** : Not available.
- Explosive properties** : Not available.
- Oxidizing properties** : Not available.

#### Particle characteristics

WEICONLOCK AN 301-48

## SECTION 9: Physical and chemical properties

Median particle size : Not applicable.

### 9.2 Other information

SADT : Not available.

SAPT : Not available.

## SECTION 10: Stability and reactivity

10.1 Reactivity : No specific test data related to reactivity available for this product or its ingredients.

10.2 Chemical stability : The product is stable.

10.3 Possibility of hazardous reactions : Under normal conditions of storage and use, hazardous reactions will not occur.

10.4 Conditions to avoid : No specific data.

10.5 Incompatible materials : No specific data.

10.6 Hazardous decomposition products : Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## SECTION 11: Toxicological information

### 11.1 Information on toxicological effects

#### Acute toxicity

| Product/ingredient name                                     | Result                            | Species | Dose                   | Exposure |
|---|-----------------------------------|---------|------------------------|----------|
| 2-Propenoic acid, 2-methyl-, monoester with 1,2-propanediol | LD50 Oral                         | Rat     | 11200 mg/kg            | -        |
| acrylic acid  | LC50 Inhalation Vapor             | Mouse   | 5300 mg/m <sup>3</sup> | 2 hours  |
|   | LD50 Dermal                       | Rabbit  | 640 mg/kg              | -        |
|   | LD50 Dermal                       | Rabbit  | 280 uL/kg              | -        |
|   | LD50 Intraperitoneal              | Mouse   | 144 mg/kg              | -        |
|   | LD50 Intraperitoneal              | Rat     | 22 mg/kg               | -        |

## SECTION 11: Toxicological information

|  |             |     |           |   |
|--|-------------|-----|-----------|---|
|  | LD50 Dermal | Rat | 500 mg/kg | - |
|  | LD50 Oral   | Rat | 800 mg/kg | - |

**Conclusion/Summary** : Not available.

### Acute toxicity estimates

| Route               | ATE value     |
|---------------------|---------------|
| Oral                | 6584.36 mg/kg |
| Dermal              | 20000 mg/kg   |
| Inhalation (gases)  | 40000 ppm     |
| Inhalation (vapors) | 293.33 mg/l   |

### Irritation/Corrosion

| Product/ingredient name                       | Result                 | Species | Score | Exposure        | Observation |
|---|------------------------|---------|-------|-----------------|-------------|
| acrylic acid                                  | Eyes - Severe irritant | Rabbit  | -     | 1 mg            | -           |
|   | Eyes - Severe irritant | Rabbit  | -     | 24 hours 250 ug | -           |
|   | Skin - Severe irritant | Rabbit  | -     | 24 hours 5 mg   | -           |
|   | Skin - Severe irritant | Rabbit  | -     | 500 mg          | -           |
| $\alpha,\alpha$ -dimethylbenzyl hydroperoxide | Skin - Mild irritant   | Rabbit  | -     | 500 mg          | -           |

**Conclusion/Summary** : Not available.

### Sensitization

**Conclusion/Summary** : Not available.

### Mutagenicity

**Conclusion/Summary** : Not available.

### Carcinogenicity

**Conclusion/Summary** : Not available.

### Reproductive toxicity

**Conclusion/Summary** : Not available.

### Teratogenicity

**Conclusion/Summary** : Not available.

### Specific target organ toxicity (single exposure)

| Product/ingredient name                                     | Category   | Route of exposure | Target organs                |
|---|------------|-------------------|------------------------------|
| 2-Propenoic acid, 2-methyl-, monoester with 1,2-propanediol | Category 3 | -                 | Respiratory tract irritation |
| acrylic acid  | Category 3 | -                 | Respiratory tract irritation |
| $\alpha,\alpha$ -dimethylbenzyl hydroperoxide               | Category 3 | -                 | Respiratory tract irritation |

### Specific target organ toxicity (repeated exposure)

| Product/ingredient name                       | Category   | Route of exposure | Target organs |
|---|------------|-------------------|---------------|
| $\alpha,\alpha$ -dimethylbenzyl hydroperoxide | Category 2 | -                 | -             |

## SECTION 11: Toxicological information

### Aspiration hazard

Not available.

**Information on the likely routes of exposure** : Not available.

### Potential acute health effects

**Eye contact** : Causes serious eye damage.  
**Inhalation** : May cause respiratory irritation.  
**Skin contact** : Causes skin irritation. May cause an allergic skin reaction.  
**Ingestion** : No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

**Eye contact** : Adverse symptoms may include the following:  
pain  
watering  
redness

**Inhalation** : Adverse symptoms may include the following:  
respiratory tract irritation  
coughing

**Skin contact** : Adverse symptoms may include the following:  
pain or irritation  
redness  
blistering may occur

**Ingestion** : Adverse symptoms may include the following:  
stomach pains

### Delayed and immediate effects and also chronic effects from short and long term exposure

#### Short term exposure

**Potential immediate effects** : Not available.  
**Potential delayed effects** : Not available.

#### Long term exposure

**Potential immediate effects** : Not available.  
**Potential delayed effects** : Not available.

#### Potential chronic health effects

Not available.

**Conclusion/Summary** : Not available.

**General** : Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

**Carcinogenicity** : No known significant effects or critical hazards.  
**Mutagenicity** : No known significant effects or critical hazards.  
**Teratogenicity** : No known significant effects or critical hazards.  
**Developmental effects** : No known significant effects or critical hazards.  
**Fertility effects** : No known significant effects or critical hazards.

### 11.2 Information on other hazards

#### 11.2.1 Endocrine disrupting properties

Not available.

#### 11.2.2 Other information

Not available.

## SECTION 12: Ecological information

### 12.1 Toxicity

| Product/ingredient name                       | Result                            | Species                             | Exposure |
|---|-----------------------------------|-------------------------------------|----------|
| acrylic acid                                  | Chronic NOEC 3.8 mg/l Fresh water | Daphnia - Daphnia magna - Neonate   | 21 days  |
| $\alpha,\alpha$ -dimethylbenzyl hydroperoxide | Acute LC50 12.7 mg/l Fresh water  | Fish - Pimephales promelas - Larvae | 96 hours |

**Conclusion/Summary** : Not available.

### 12.2 Persistence and degradability

**Conclusion/Summary** : Not available.

### 12.3 Bioaccumulative potential

| Product/ingredient name                                     | LogP <sub>ow</sub> | BCF   | Potential |
|---|--------------------|-------|-----------|
| 2-Propenoic acid, 2-methyl-, monoester with 1,2-propanediol | 0.97               | -     | low       |
| acrylic acid  | 0.38               | 3.162 | low       |
| $\alpha,\alpha$ -dimethylbenzyl hydroperoxide               | 1.6                | 9     | low       |

### 12.4 Mobility in soil

**Soil/water partition coefficient (K<sub>oc</sub>)** : Not available.

**Mobility** : Not available.

### 12.5 Results of PBT and vPvB assessment

This mixture does not contain any substances that are assessed to be a PBT or a vPvB.

### 12.6 Endocrine disrupting properties

Not available.

### 12.7 Other adverse effects

No known significant effects or critical hazards.

## SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

### 13.1 Waste treatment methods

#### Product

**Methods of disposal** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.

**Hazardous waste** : The classification of the product may meet the criteria for a hazardous waste.

#### European waste catalogue (EWC)

WEICONLOCK AN 301-48

## SECTION 13: Disposal considerations

| Waste code | Waste designation  |
|------------|--|
| 08 04 09*  | waste adhesives and sealants containing organic solvents or other hazardous substances |

### Packaging

**Methods of disposal** : The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

| Type of packaging | European waste catalogue (EWC)   |
|-------------------|--|
| 15 01 10*         | packaging containing residues of or contaminated by hazardous substances |

**Special precautions** : This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## SECTION 14: Transport information

|                                 | ADR/RID                   | IMDG                      | IATA           |
|---------------------------------|---------------------------|---------------------------|----------------|
| 14.1 UN number                  | Not available.            | Not available.            | Not available. |
| 14.2 UN proper shipping name    | Not available.            | Not available.            | Not available. |
| 14.3 Transport hazard class(es) | Not available.            | Not available.            | Not available. |
| 14.4 Packing group              | -                         | -                         | -              |
| 14.5 Environmental hazards      | No.<br><br>Not available. | No.<br><br>Not available. | No.            |

### Additional information

**14.6 Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

**14.7 Transport in bulk according to IMO instruments** : Not available.

## SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

EU Regulation (EC) No. 1907/2006 (REACH)

Annex XIV - List of substances subject to authorization

Annex XIV

None of the components are listed.

Substances of very high concern

None of the components are listed.

## SECTION 15: Regulatory information

**Annex XVII - Restrictions** : Not applicable.  
on the manufacture,  
placing on the market  
and use of certain  
dangerous substances,  
mixtures and articles

### Restrictions on Manufacture, Marketing and Use

| Country | Product name | Conc. | Designation | Usage |
|---------|--------------|-------|-------------|-------|
|---------|--------------|-------|-------------|-------|

### Other EU regulations

**Industrial emissions** : Not listed  
(integrated pollution  
prevention and control) -  
Air

**Industrial emissions** : Not listed  
(integrated pollution  
prevention and control) -  
Water

### Ozone depleting substances (1005/2009/EU)

Not listed.

### Prior Informed Consent (PIC) (649/2012/EU)

Not listed.

### Persistent Organic Pollutants

Not listed.

### Seveso Directive

This product is not controlled under the Seveso Directive.

### National regulations

**Storage class (TRGS 510)** : 10

### Hazardous incident ordinance

This product is not controlled under the Germany Hazardous Incident Ordinance.

**Hazard class for water** : 1

**Technical instruction on** : TA-Luft Number 5.2.5: 30.1-51%  
**air quality control** : TA-Luft Class I - Number 5.2.5: 3.5-7.5%

**AOX** : The product does not contain organically bound halogens which could lead to an AOX value in waste water.

### International regulations

#### Chemical Weapon Convention List Schedules I, II & III Chemicals

Not listed.

#### Montreal Protocol

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

#### Rotterdam Convention on Prior Informed Consent (PIC)

Not listed.

#### UNECE Aarhus Protocol on POPs and Heavy Metals

Not listed.

## SECTION 15: Regulatory information

### Inventory list

|  |   |
|--|---|
| <b>Australia</b>                       | : All components are listed or exempted.  |
