

Stripping Tools

Cat Cable-Stripper No. 10

WEICON Stripping Tools enable the fast and safe stripping of all common round cables. The product range of stripping tools includes different types, which provide easy handling and accurate results.

The Cat Cable-Stripper No. 10 ensures safe and comfortable stripping of all common data and network cables with a diameter of 4,5 - 10 mm (e.g. Cat5, Cat6, Cat7, twisted-pair cables). The cutting depth does not need to be adjusted manually.

The ergonomic handle shape allows an easy handling of the tool. Its distinctive handle makes the Cat Cable-Stripper No. 10 comfortable to use and prevents the hand from slipping, which makes daily work easier and safer. The rounded and space-saving tool head adjusts perfectly to modern socket shapes. Its oblong shape allows better accessibility in deeper cavity wall boxes and in other spaces difficult to access. The design of the blades prevents the electrogalvanized knives from clogging with coating remains. The integrated length stop can be adjusted to the required sheath opening of network outlets and other plugs (3 - 10 cm), which makes further processing easier. An interlock guarantees safe storage of the tool.

Technical Data

Cable type	Cat5, Cat6, Cat7, twisted-pair cable
Application area	outer diameter 4.5 - 10 mm
Additional use	Length stop in the housing
Material	fibreglass-reinforced polyamide
Inner blade	built-in, not replaceable
Approval / certificate	Safety tested by TÜV NORD
Weight	48 g
Length	140 mm
Article number	52000010

Attention:
Tool not to be used on live cables or conductors.
