

# Wire Strippers

## Wire Stripper No. 6

WEICON Wire Strippers enable the fast, easy and even stripping of stranded and solid conductors. The wire stripper feature an ergonomic shape as well as an automatic scanning system, which identifies the cable diameter. This prevents damaging the inner conductor. The product family of wire strippers comprises several types, which are suitable for different applications and tailored to the users' individual needs. The wire strippers are used in skilled trades as well as in industrial applications, and they are also suitable for use in the domestic sector.

WEICON Wire No. 6 is an ergonomic automatic wire stripper. With the automatic scanning system, no adjustment to the cable cross-section is necessary. The fibreglass-reinforced wire stripper has an adjustable length stop from 5 - 12mm. This allows all solid and solid conductors from 0.2 - 6.0 mm<sup>2</sup> to be stripped efficiently and evenly. The fully insulated tool complies with the regulations on individual testing according to VDE IEC 60900 and withstands voltage up to 10 volts.

### Technical Data

Cable type	finely stranded and solid conductors with PVC insulations, round and wet room cables
Additional use	Tool fully insulated up to 1000 volts
Material	fully insulated fibreglass-reinforced polyamide
Inner blade	replaceable
Accessories	Spare blade, art. no. 51100002
Approval / certificate	Individual testing according to DIN EN 60900
Weight	105 g
Length	165 mm
Article number	MA51000006
Application area	0.2 - 6.0 mm <sup>2</sup> (24 - 10 AWG)

Attention:  
Tool not to be used on live cables or conductors.
