

Stripping Tools

Combi-Coax No. 3

WEICON Stripping Tools enable the fast and safe stripping of all common round cables. The product range of stripping tools includes different types, which provide easy handling and accurate results.

The Combi-Coax No. 3 enables step-by-step stripping of all common coaxial cables, NYM cables and flexible cables. Adjusting the cutting depth manually is not necessary. The Combi-Coax No. 3 strips coaxial cables with a diameter of 4.8 - 7.5 mm, NYM cables of 3 x 0.75 mm² and flexible cables of 10 and 16 mm². In addition, the Combi-Coax No. 3 has an easily accessible side cutter for cables up to 8 mm in diameter. When using the stripper, a precise cutting pattern is shown during stripping. For example, the first sheath of a coaxial cable can be removed with the knife of the stripper on side A. Then the inner conductor is stripped with side B.

Technical Data

Cable type	Coaxial cables, resp. antenna and transmission cables,
Application area	Coaxial cable with outer diameter 4.8 - 7.5 mm, NYM 3 x 0.75mm ² , flexible cables 10mm ² , 16mm ²
Additional use	Side cutter, gradual stripping possible due to 2 different blade distances, length stop
Material	fibreglass-reinforced polyamide
Inner blade	built-in, not replaceable
Weight	55 g
Length	125 mm
Article number	52000003

Attention:
Tool not to be used on live cables or conductors.
