

Wire Strippers

Precision Wire Stripper S

WEICON Stripping Tools enable the precise, fast, and safe stripping of all common round cables. The product family of cable strippers includes different types featuring different additional functions and thus meeting the individual application requirements of their users. WEICON Wire Strippers enable the fast, easy and even stripping of stranded and solid conductors. The wire strippers feature an ergonomic shape as well as an automatic scanning system, which identifies the cable diameter. This prevents damaging the inner conductor. The product family of wire strippers comprises several types, which are suitable for different applications and tailored to the users' individual needs. The wire strippers are used in skilled trades as well as in industrial applications, and they are also suitable for use in the domestic sector.

Technical Data

Cable type	fine-stranded conductors and strands, PVC, PTFE/Teflon, Kynar insulation, etc.
Material	fibreglass-reinforced polyamide
Inner blade	built-in, not replaceable
Approval / certificate	Safety tested by TÜV NORD
Weight	45 g
Length	112 mm
Article number	MA51000002
Application area	0.12 mm - 0.8 mm Ø (36 - 20 AWG)

reddot winner 2020

Semi-automatic wire stripper for the fast and safe stripping of very fine conductors, strands or wires with small diameters in the range of 0,12 mm - 0,8 mm (3620 AWG). With the adjustable scaled length stop for the working range from 5 to 45 millimetres, the desired stripping length can be set quickly and reliably. Two durable, precisely adjusted torsion springs, which push symmetrically on the pair of blades with a defined force, ensure comfortable working. That way, the respective insulation is cut with the right pressure. In combination with the scanning system that is integrated in the tool, this ensures damage-free stripping. The tool is suitable for both right- and left-handed users.

Attention:
Tool not to be used on live cables or conductors.
