

Coax-Stripper No 1 F Plus - suitable for F-screw connectors

WEICON Stripping Tools enable the fast and safe stripping of all common round cables. The product range of stripping tools includes different types, which provide easy handling and accurate results.

The Coax-Stripper No. No. 1 F Plus enables fast and easy stripping of all coax cables in just one single step. Due to the two pairs of blades facing each other, the stripping process can be carried out quickly and in a space-saving manner by means of multiple, light rotary movements. The preset set-down dimension is suitable for common F-screw connectors (6 / 4 mm). If required, the blade inserts can be changed and thus other dimensions, e.g. for compression connectors (6.5 / 6.5 mm), can be realised. Blade inserts with other dimensions are optionally available and can be conveniently exchanged using the "click system". The tool is suitable for e.g. TV aerial cables from 6 - 8 mm. The gripping jaws can be used to screw the F-screw connectors onto the already stripped cable. The integrated open hexagon with 11 mm width across flats (SW 11 mm) enables space-saving assembly or disassembly of F-connectors during subsequent connection. Particularly in narrow places, the hexagon allows very good accessibility and can be operated without further preparation. A locking mechanism guarantees safe storage of the tool.

Technical Data

Cable type	Coaxial cables, resp. antenna and transmission cables
Application area	outer diameter 6 - 8 mm, for F-screw connectors
Additional use	Open hexagon with 11 mm wrench size (SW 11 mm) for mounting F-connectors
Material	fibreglass-reinforced polyamide
Inner blade	Modul inserts with fixed blades, changeable
Approval / certificate	Safety tested by TÜV NORD
Accessories	Module inserts for compression connectors 6.5/6.5mm
Weight	47 g
Length	125 mm
Article number	52000001
Approvals / Guidelines	
ISSA Code	75.629.12
IMPA Code	815245

Attention:
Tool not to be used on live cables or conductors.
