

Stripping Tools

Profibus Stripper No. 2

WEICON Stripping Tools enable the fast and safe stripping of all common round cables. The product range of stripping tools includes different types, which provide easy handling and accurate results.

With the Profibus Stripper No. 2, the outer sheath and the underlying shield can be cleanly cut in order to strip the Profibus cable according to its connector. The optical length scale in the module can be used to select the appropriate stripping length to prepare the Ethernet cables to fit the FastConnect connector. For the stripping lengths of 17 mm, 20 mm, 24 mm and 30 mm, the usual dimensions are visually marked in the module. The stripper was developed to cut Profibus cables in the range of 5.5 mm to 8 mm with two pairs of blades simultaneously for a precise fit. The cutting pattern creates an ideal preparation for FastConnect connectors - even with different cable diameters. If necessary, the pairs of knives in the half-shells can be replaced or renewed as modules.

Technical Data

Cable type	shielded Profibus data cables with a diameter of 5.5 mm to 8 mm
Application area	e.g. installing for FastConnect connectors
Additional use	modular pair of blades for Profibus
Material	fibreglass-reinforced polyamide
Inner blade	replaceable
Accessories	Modul inserts with fixed blades, changeable, art. no. 52101002
Weight	35 g
Length	110 mm
Article number	52004002

Attention:
Tool not to be used on live cables or conductors.
