

CA-Remover

Breaks down and removes all types of cyanoacrylate adhesives

WEICON CA-Remover reliably breaks down and removes all types of cyanoacrylate adhesives. The remover is suitable for cleaning metal parts, tools and many different surfaces that have come into contact with cyanoacrylate adhesives. After a few minutes of soaking in, the dissolved adhesive can be wiped off with a lint-free cloth. In case of stubborn soiling, repeat the procedure. Some plastics, coatings and sensitive surfaces may possibly be damaged by the CA-Remover. Therefore, the material compatibility of the surface should always be tested on a hidden area first. In contrast to other conventional solvents, WEICON CA-Remover is not highly flammable and has a high flash point of $>120\text{ }^{\circ}\text{C}$.

Characteristics

Minimum shelf life at room temperature 12 mon.

Processing

Viscosity 3 - 10 mPa·s
Gap bridging up to max. mm mm

Thermal parameters

Flashpoint > 120

Instructions for use

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.

Application

Apply CA-Remover to the area that needs cleaning. After a few minutes of soaking in, the dissolved adhesive can be wiped off with a lint-free cloth. In case of stubborn soiling, repeat the procedure.

Storage

Keep tightly closed in original packaging. Protect from direct sunlight. The storage temperature must not exceed $+50\text{ }^{\circ}\text{C}$. Keep container in a cool, well-ventilated place. Store in a dry place.

Scope of delivery

Substance

Available sizes

10051358 CA-Remover, 30 ml
10059034 CA-Remover, 12 ml
