Technical Sprays
Cleaners and Degreasers

Fast Cleaner

Nonfood Compounds
Program Listed **A1**
Registration **156578**

Cleaning and degreasing agent for sensitive areas

WEICON Fast Cleaner has an NSF registration for the food industry and can therefore be used as a cleaning and degreasing agent for the removal of contamination generated within the scope of maintenance works and for the removal of non-cured adhesive residues in the food industry, in the food and beverage industry and in the pharmaceuticals and chemical industries.

Fast Cleaner is used to clean and degrease surfaces which are bonded or sealed with WEICON adhesives and sealants, or which are going to be coated with WEICON Metal Sprays.

Fast Cleaner is pH-neutral and material compatible, and can be used on many different materials such as metals, glass, ceramics and most rubbers and plastics.

Due to its special formula and the resulting NSF registration, the Fast Cleaner can contribute towards improvements in occupational safety and health protection.

Technical data

Odour		solvent
Colour		colourless, transparent
Specific properties		NSF A1 registration
Silicone-free		yes
Minimum shelf life	at room temperature	24 mon.
AOX-free		yes
Boiling point	Technical Liquid	82 °C
Temperature resistance		-10°C to +50°C
Compatible with Double Nozzle		yes

Approvals / Guidelines

NSF	A1 (FDA 21 CFR)

Application

Spray the part to be cleaned generously and allow product to take effect;wipe with a clean cloth, if required. Repeat, if necessary. Protect plastic and varnished surfaces.
