

Silicone HT 300

High-temperature-resistant | acetoxy-curing

WEICON HT 300 is red, high-temperature-resistant (+300 °C /+572 °F), free of solvents, strong, and acetoxy-curing. It is resistant to weathering, ageing and chemicals and is extremely elastic (breaking elongation of approx. 300%).

The product is particularly suitable for heat-exposed bonds and seals and adheres very well to steel, aluminium, glass, ceramics and many other materials.

The adhesive and sealant can be used in industrial furnaces, flue gas systems, heating installations, exhaust gas routing, heating cabinets and in many additional areas.

Characteristics

Base	1-C. polysiloxane (acetate)	
Texture	pasty	
Colour	red	
Cure type	moisture-curing	
Can be painted	No	
Stability/run-off	ASTM D 2202	1.0 mm
Building material class	DIN 4102	B 2
Minimum shelf life	at room temperature	12 mon.

Processing

Curing condition	from +5°C to +40°C and 30% to 95% rel. air humidity	
Curing speed	in the first 24 h	2 -3 mm
Density	1,18 g/cm ³	
Max. sealing joint width	25 mm	
Gap bridging up to max.	5 mm	

Curing

Skin-over time	8 min.
----------------	--------

Mechanical properties after curing

Tensile strength	ISO 37	2,5 N/mm ²
Elongation at break (tensile)	ISO 37, S3A	300 %
Elongation at 100 %	ISO 37 S3A	0,9 N/mm ²
Movement absorption max.	15 %	
Hardness (Shore A)	DIN ISO 7619	30±5
Volume change	DIN 52451	< -6 %

Thermal parameters

Temperature resistance	-40 °C to briefly +280 °C (approx. 2 h) +300 °C
------------------------	---

Approvals / Guidelines

ISSA Code	75.634.20/21
IMPA Code	815282/83

Surface Pre-Treatment

Surfaces must be clean and free of grease. Many surface soiling, such as oil, grease, dust and dirt can be removed with WEICON Surface Cleaner. For heavily soiled metal surfaces, we recommend Cleaner Spray S; for removing old colour residues or adhesive residues, WEICON Sealant and Adhesive Remover is ideal. Most materials can be bonded to and among each other. For certain materials or special requirements, we recommend the use of a bonding agent (primer). Mechanical surface pre-treatment e.g. by grinding or sanding can also improve the adhesion considerably.

Application

Processing Cartridge

gun for 310 ml cartridges, compressed air gun, we recommend a version with piston rod (WEICON Compressed Air Cartridge Gun), automatic dosing systems. Squeeze out by hand, close tube again immediately after use, opened tubes should be used up as quickly as possible

Processing mini hose bag

Hook the tube key centrally onto the clip of the mini hose bag. Remove the safety tab. Then screw the cap further in — this will cut open the mini hose bag. Open the closure and dispense the material by turning the tube key.

Joining the bonding parts

To ensure optimal wetting, the parts to be bonded must be joined before a skin forms on the adhesive (skin formation time).

Storage

Store in the unopened original container at room temperature. Avoid sources of heat and direct sunlight.

Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation. We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended. A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.

Instructions for use

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets (www.weicon.com) must be observed.

Accessories

10025241	V-Joint Nozzle, 1 PCE
10020751	Cartridge Gun Special, 1 PCE
10000441	Cartridge Gun, 1 PCE
10101992	Clip Nozzle Green Tube, 1 PCE, transparent
10059792	Pressure gun Airflow 3, 1 PCE

Available sizes

10005243	Silicone HT 300, 85 ml, red
10104027	Silicone HT 300, 280 ml (Green Tube), red
10104059	Silicone HT 300, 280 Set, red
10104250	Silicone HT 300, 280 ml (plastic bag), red
