

Cable Scissors No. 35

Cable Scissors No. 35 is suitable for three different applications: cutting, stripping and crimping. The scissors have been designed so that they can be used in many situations in everyday working life and are thus a useful addition to other tools in the field of electrics. It has been specially designed to meet the needs of professional users and is used both in skilled trades and in industry.

The scissors can be used for cutting and stripping Cu/Al wires and crimping wire end ferrules from 0.5 - 4 mm². The stainless blades made of high-quality INOX steel are hardened to 55 HRC and therefore very wear-resistant. The fine micro serration of the blades enables flush and slip-free cutting, resulting in a very precise cut. The non-slip 2-component handles made of impact-resistant fibreglass-reinforced plastic ensure safe working.

Technical Data

Application area	Fine stranded copper and aluminium cables up to 50 mm ² Cutting edge with micro-serration for a smooth cut
Material	blades made of special stainless steel
Hardness grade blade	HRC 55
Additional value	Stripping, crimping of wire end ferrules 0.5 - 4 mm ²
Accessories	including safetybox with belt clip
Weight	90 g
Length	150 mm
Article number	MA52000035
Approvals / Guidelines	
IMPA Code	611735

Attention:
Tool not to be used on live cables or conductors.
