# SAFETY DATA SHEET

### according to 29 CFR 1910.1200 and ANSI standard Z400.1-2010

Contact Filler black

### Section 1. Identification

| GHS product identifier | : Contact Filler black |
|------------------------|------------------------|
| Product code           | : 126510               |

Relevant identified uses of the substance or mixture and uses advised against

Filler-Cyanoacrylate

| Supplier's details                                   | : WEICON Canada Inc.<br>20 Steckle Place, Unit 20<br>Kitchener, Ontario N2E 2C3, CA<br>www.weicon.ca<br>E-mail: info@weicon.ca<br>Telephone: +1-519-896-5252<br>Telefax: +1-519-896-5254 |
|--|--|
| e-mail address of person<br>responsible for this SDS | : msds@weicon.de   |
| Emergency telephone<br>number                        | : +1 202 464 2554 / TRANSPORT EMERGENCY CONTACT - USA (24h): Tel: +1 202 464 2554  |

### Section 2. Hazards identification

| OSHA/HCS status                            | : While this material is not considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for employees and other users of this product. |
|--|--|
| Classification of the substance or mixture | : Not classified.  |
| GHS label elements                         |  |
| Signal word                                | : No signal word.  |
| Hazard statements                          | : No known significant effects or critical hazards.  |
| Precautionary statements                   |  |
| Prevention                                 | : Not applicable.  |
| Response                                   | : Not applicable.  |
| Storage                                    | : Not applicable.  |
| Disposal                                   | : Not applicable.  |
| Hazards not otherwise<br>classified        | : None known.  |

### Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

## Section 4. First aid measures

### Description of necessary first aid measures

| Eye contact  | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Get medical attention if irritation<br/>occurs.</li> </ul>  |
|--------------|--|
| Inhalation   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.  |
| Skin contact | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>   |
| Ingestion    | : Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |

### Most important symptoms/effects, acute and delayed

| Potential acute health e   | effects   |  |
|--|---|--|
| Eye contact  | : No known significant effects or critical hazards.                               |  |
| Inhalation   | : No known significant effects or critical hazards.                               |  |
| Skin contact   | : No known significant effects or critical hazards.                               |  |
| Ingestion  | : No known significant effects or critical hazards.                               |  |
| Over-exposure signs/sy   | <u>ymptoms</u>  |  |
| Eye contact  | : No specific data.   |  |
| Inhalation   | : No specific data.   |  |
| Skin contact   | : No specific data.   |  |
| Ingestion  | : No specific data.   |  |
| Indication of immediate medical attention and special treatment needed, if necessary |   |  |
| Notes to physician   | : Treat symptomatically. Contact poison treatment specialist immediately if large |  |

|                            | quantities have been ingested or inhaled.  |
|----------------------------|--|
| Specific treatments        | : No specific treatment.   |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training. |

### See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising<br>from the chemical  | : No specific fire or explosion hazard.   |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>metal oxide/oxides   |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

# Section 6. Accidental release measures

| Personal precautions, protecti                                  | ve equipment and emergency procedures  |
|---|--|
| For non-emergency personnel                                     | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate personal<br>protective equipment. |
| For emergency responders  | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions                                       | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |
| <u>Methods and materials for</u><br>containment and cleaning up | : Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.  |
| Small spill   | : Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licensed waste disposal contractor.  |

# Section 7. Handling and storage

### Precautions for safe handling

| rooddallono for odio nanaling                                      |  |   |
|--|--|---|
| Protective measures  | t on appropriate personal protective equipment (see Section 8).  |   |
| Advice on general occupational hygiene                             | ating, drinking and smoking should be prohibited in areas where this ma<br>indled, stored and processed. Workers should wash hands and face be<br>inking and smoking. Remove contaminated clothing and protective equ<br>itering eating areas. See also Section 8 for additional information on hy<br>easures.   | efore eating,<br>iipment before                             |
| Conditions for safe storage,<br>including any<br>incompatibilities | ore in accordance with local regulations. Store in original container pro-<br>rect sunlight in a dry, cool and well-ventilated area, away from incompat<br>ee Section 10) and food and drink. Keep container tightly closed and se<br>ady for use. Containers that have been opened must be carefully resea<br>oright to prevent leakage. Do not store in unlabeled containers. Use ap<br>intainment to avoid environmental contamination. See Section 10 for in<br>aterials before handling or use. | ible materials<br>ealed until<br>aled and kept<br>propriate |

### Section 8. Exposure controls/personal protection

### **Control parameters**

### Occupational exposure limits

None.

| Appropriate engineering controls | : | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
|----------------------------------|---|---|
| Environmental exposure controls  | : | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels. |

### Individual protection measures

# Section 8. Exposure controls/personal protection

| Hygiene measures       | : Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location. |
|------------------------|---|
| Eye/face protection    | : Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.                                 |
| Skin protection        |   |
| Hand protection        | : Recommended : 1 - 4 hours (breakthrough time): nitrile rubber 4 - 8 hours (breakthrough time): Viton®/butyl rubber  |
| Body protection        | <ul> <li>Personal protective equipment for the body should be selected based on the task being<br/>performed and the risks involved and should be approved by a specialist before<br/>handling this product.</li> </ul>   |
| Other skin protection  | <ul> <li>Appropriate footwear and any additional skin protection measures should be selected<br/>based on the task being performed and the risks involved and should be approved by a<br/>specialist before handling this product.</li> </ul>   |
| Respiratory protection | : In case of insufficient ventilation, wear suitable respiratory equipment.   |
|                        |   |

# Section 9. Physical and chemical properties

Appearance

| Appearance  |  |
|---|--|
| Physical state  | : Solid.   |
| Color   | : Black.   |
| Odor  | : Characteristic.                                |
| Odor threshold  | : Not available.                                 |
| рН  | : Not applicable.                                |
| Melting point/freezing point                          | : 730°C (1346°F)                                 |
| Boiling point, initial boiling                        | : Not available.                                 |
| point, and boiling range                              |  |
| Flash point   | : Not applicable.                                |
| Evaporation rate                                      | : Not available.                                 |
| Flammability  | : Not available.                                 |
| Lower and upper explosion<br>limit/flammability limit | : Not applicable.                                |
| Vapor pressure  | : Not available.                                 |
| Relative vapor density                                | : Not applicable.                                |
| Relative density                                      | : Not available.                                 |
| Density   | : 2.47 g/cm³ [20°C (68°F)]                       |
| Solubility(ies)                                       | :  |
| Not available.  |  |
| Solubility in water                                   | : Not applicable.                                |
| Miscible with water                                   | : No.  |
| Partition coefficient: n-<br>octanol/water            | : Not applicable.                                |
| Auto-ignition temperature                             | : Not applicable.                                |
| Decomposition temperature                             | e : Not available.                               |
| Viscosity   | : Not applicable.                                |
| Flow time (ISO 2431)                                  | : Not available.                                 |
| Particle characteristics                              |  |
| Median particle size                                  | : Not available.                                 |
| Date of issue/Date of revision                        | : 11/21/2023 Date of previous issue : 11/23/2022 |

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.           |
|------------------------------------|--|
| Chemical stability                 | : The product is stable.   |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.                      |
| Conditions to avoid                | : No specific data.  |
| Incompatible materials             | : No specific data.  |
| Hazardous decomposition products   | : Under normal conditions of storage and use, hazardous decomposition products should not be produced. |

# Section 11. Toxicological information

### Information on toxicological effects

### Acute toxicity

Not available.

#### Acute toxicity estimates

Not available.

#### Irritation/Corrosion

Not available.

### **Sensitization**

Not available.

#### **Mutagenicity**

Not available.

#### **Carcinogenicity**

Not available.

#### **Reproductive toxicity**

Not available.

### **Teratogenicity**

Not available.

### Specific target organ toxicity (single exposure)

Not available.

### Specific target organ toxicity (repeated exposure)

Not available.

#### Aspiration hazard

Not available.

#### Information on the likely : Not available. routes of exposure

| Potential acute health effe    | <u>cts</u>   |                                    |             |
|--------------------------------|--------------|------------------------------------|-------------|
| Eye contact                    | : No known   | significant effects or critication | al hazards. |
| Inhalation                     | : No known   | significant effects or critication | al hazards. |
| Skin contact                   | : No known   | significant effects or critica     | al hazards. |
| Date of issue/Date of revision | : 11/21/2023 | Date of previous issue             | :11/23/2022 |

# Section 11. Toxicological information

### Ingestion

: No known significant effects or critical hazards.

### Symptoms related to the physical, chemical and toxicological characteristics

| Eye contact  | : No specific data. |
|--------------|---------------------|
| Inhalation   | : No specific data. |
| Skin contact | : No specific data. |
| Ingestion    | : No specific data. |

# Delayed and immediate effects and also chronic effects from short and long term exposure

| <u>Short term exposure</u>     |   |
|--------------------------------|---|
| Potential immediate<br>effects | : Not available.                                    |
| Potential delayed effects      | : Not available.                                    |
| Long term exposure             |   |
| Potential immediate<br>effects | : Not available.                                    |
| Potential delayed effects      | : Not available.                                    |
| Potential chronic health effe  | <u>ects</u>   |
| Not available.                 |   |
| General                        | : No known significant effects or critical hazards. |
| Carcinogenicity                | : No known significant effects or critical hazards. |
| Mutagenicity                   | : No known significant effects or critical hazards. |
| Teratogenicity                 | : No known significant effects or critical hazards. |
| Developmental effects          | : No known significant effects or critical hazards. |
| Fertility effects              | : No known significant effects or critical hazards. |
|                                |   |

# Section 12. Ecological information

#### <u>Toxicity</u>

Not available.

### Persistence and degradability

Not available.

### **Bioaccumulative potential**

Not available.

### <u>Mobility in soil</u>

| Soil/water partition | : Not available. |
|----------------------|------------------|
| coefficient (Koc)    |                  |
|                      |                  |

**Other adverse effects** : No known significant effects or critical hazards.

### Section 13. Disposal considerations

**Disposal methods** 

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

### Section 16. Other information

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

#### National Fire Protection Association (U.S.A.)

#### Procedure used to derive the classification

|  | Justification |  |
|--|---------------|--|
| Not classified.  |               |  |
| History  |               |  |
