

## WEICON Rust Remover Gel

high reaction speed | very economical | solvent-free

Gel for fast and reliable removal of rust and tarnish. Rust Remover Gel can be used on ferrous steel, brushed stainless steel, copper, brass, chrome and silver. It has a high reaction speed, penetrates very well and is very economical. The gel removes tarnish in just a few seconds. With rust, the removal process can take between 15 minutes and 12 hours – depending on the degree of corrosion.

The blue gel does not need to be heated for application but can be used at room temperature. This solution has a natural, solvent-free composition and ensures gentle rust removal.

WEICON Rust Remover Gel can be used in various areas of industry and trade.

### Characteristics

|                    |                             |
|--------------------|-----------------------------|
| Base               | watery solution             |
| Solid content      | ~ 30 %                      |
| Colour             | blue                        |
| Texture            | liquid                      |
| Density            | 1,1 g/cm <sup>3</sup>       |
| Minimum shelf life | at room temperature 24 mon. |

### Chemical properties

### Surface Pre-Treatment

The surface has to be dry, clean and free from dust, oil and grease. Remove loose rust, dirt and paint residues using a wire brush, grinding discs, etc. Remove sanding dust from the surface with WEICON Cleaner Spray S or WEICON Surface Cleaner.

### Application

We recommend an ambient temperature of +20 °C for processing. Apply Rust Remover Gel generously to the surface with a brush and work in thoroughly. With the help of this technique, the Rust Remover Gel penetrates well into all cracks and rough depths. Keep the treated area as moist as possible (e.g. with foil) to prevent the gel from drying.

This method increases the efficiency. Depending on the degree of rusting, allow to take effect for at least 24 hours. Then rinse thoroughly with clean water and a sponge or brush and dry. If necessary, the process can be repeated several times. After treatment, the passive layer on the surface should be sealed promptly with a protective coating (e.g. WEICON Zinc Spray).

### Storage

Keep tightly closed in original packaging. Protect from direct sunlight. The storage temperature must not exceed +50 °C. Keep container in a cool, well-ventilated place. Store in a dry place.

### Instructions for use

When using WEICON products, the physical, safety-related, toxicological and ecological data and regulations in our EC safety data sheets ([www.weicon.com](http://www.weicon.com)) must be observed.

### Accessories

|          |   |
|----------|---|
| 10000147 | Cleaner Spray S, 500 ml, transparent    |
| 10000347 | Cleaner S, 5 L, colourless, transparent |
| 10024313 | Surface Cleaner, 400 ml, transparent    |
| 10025288 | Surface Cleaner, 5 L, transparent       |
| 10000016 | Zinc Spray, 400 ml                      |
| 10000047 | Zinc Spray bright grade, 400 ml         |
| 10010887 | Processing Spatula short, 1 PCE         |
| 10022562 | Processing Spatula long, 1 PCE          |
| 10065455 | Brush 35, long, Adhesive, 1 PCE         |
| 10000398 | Adjusting Valve for cans, 1 PCE         |

### Available sizes

|          |                                    |
|----------|------------------------------------|
| 10101908 | WEICON Rust Remover Gel, 1 L, blue |
