

## Crimp tool MULTI

The crimping tool was designed for the reliable creation of electrical connections. It has been specially designed to meet the needs of professional users and is used both in skilled trades and in industry

MULTI-CRIMP was developed for the process-safe crimping of various electrical connectors. The crimping tool has a ratchet mechanism with a blocking device to ensure a consistently high crimping quality and results that can be precisely repeated. The mechanism only opens the tool when the crimping process is complete. An emergency release has also been integrated into the handle, which opens the crimping tool in the event of misuse.

The accurate eccentric setting ensures a high crimping quality thanks to the precisely adjustable crimping force. With the Multi Change System, the module pairs of the crimping tool can be exchanged quickly and easily, as needed. The change system, which requires no additional tools, ensures that the modules can be installed and removed fast. The standard version of the crimping tool is equipped with three pairs of modules made of high-quality steel. One pair for MC4 connectors with cable cross-sections of 2.5 mm<sup>2</sup>, 4 mm<sup>2</sup> and 6 mm<sup>2</sup> (14-10 AWG). Another pair of modules for insulated wire end ferrules from 0.25-6 mm<sup>2</sup> (AWG 24-10) and a third module for insulated cable lugs from 0.25-2.5 mm<sup>2</sup> (AWG 24-14). The three pairs of modules are stored safely and protected from dust in a small plastic box.

The 2-component handles of the MULTI-CRIMP tool ensure non-slip and ergonomically friendly handling with maximum force transmission. The tried and tested “ice-crack design” was used, which ensures a comfortable feel. The integrated eyelets on the handles can be used to attach a safety catch.

### Technical Data

Application range	Insulated cable lugs 0.25-2.5 mm <sup>2</sup> (24-14 AWG)   Wire end ferrules 0.25-6 mm <sup>2</sup> (24-10 AWG)   MC4 connectors 2.5/4/6 mm <sup>2</sup> (14-10 AWG)
Additional use	precise work thanks to ratchet mechanism with blocking device
Material	Pliers body made of carbon steel, painted black
Additional value	Plastic box for safe and dust-protected storage of the modules
Accessories	3-piece Crimping Set MULTI, art. no.10101331
Weight	378 g
Length	208 mm
Article number	10100515

Attention:  
Tool not to be used on live cables or conductors.
