

Cable Stripper No. 4 - 28 H Green Line

With the Green Line, a very special tool range has been developed. The tools are made of up to 97 % renewable raw materials. The Green Line includes various cable strippers, wire strippers, and multifunctional stripping tools. WEICON Wire Strippers enable the fast, easy and even stripping of stranded and solid conductors. The wire stripper feature an ergonomic shape as well as an automatic scanning system, which identifies the cable diameter. This prevents damaging the inner conductor. The product family of wire strippers comprises several types, which are suitable for different applications and tailored to the users' individual needs. The wire strippers are used in skilled trades as well as in industrial applications, and they are also suitable for use in the domestic sector.

The Cable Stripper 4-28 H enables precise, fast and safe stripping of all common round cables with a diameter between 4 and 28 millimetres. The Cable Stripper has a non-slip, multi-component handle with ergonomic shape. Thanks to the set screw on the back of the handle, the cutting depth can be adjusted with an infinitely variable range. This prevents damaging the inner conductor. The cutting blade is integrated in the housing and self-rotating, thus enabling the automatic adjustment from circular to longitudinal cutting. In addition, the 4-28 H has a hook blade, which can be covered with a safety cap. The cap locks the blade safely, which significantly reduces the risk of injury.

Technical Data

Cable type	finely stranded and solid conductors with PVC insulation, round and wet room cables
Application range	outer diameter 4 - 28 mm
Additional use	hook blade with safety cap
Material	fibreglass-reinforced biopolymer such as polyamide
Inner blade	adjustable + replaceable
Approval / certificate	safety tested by TÜV NORD
Accessories	spare blade, art. no. 5010001
Weight	80 g
Length	185 mm
Article number	10061991

Attention:
Tool not to be used on live cables or conductors.
