

Duo-Crimp No. 300 Green Line

With the Green Line, a very special tool range has been developed. The tools are made of up to 97 % renewable raw materials. The Green Line includes various cable strippers, wire strippers, and multifunctional stripping tools. WEICON Wire Strippers enable the fast, easy and even stripping of stranded and solid conductors. The wire stripper feature an ergonomic shape as well as an automatic scanning system, which identifies the cable diameter. This prevents damaging the inner conductor. The product family of wire strippers comprises several types, which are suitable for different applications and tailored to the users' individual needs. The wire strippers are used in skilled trades as well as in industrial applications, and they are also suitable for use in the domestic sector.

With the WEICON Duo-Crimp No. 300 can be used to strip conductors and crimp wire end ferrules. With the automatic scanning system no adjustment to the cable cross-section is necessary. The stripper has an optical length scale of 8 - 20 mm and is suitable for all common stranded and solid conductors from 0.5 mm² - 6.0 mm². The Duo-Crimp No. 300 insulates conductors to a length of 5 mm, preventing the individual conductors from splicing. Two crimping ranges are offered: 0.5 - 2.5 mm² and 4.0 - 6.0 mm². A well-accessible side cutter is integrated in the tool, which is suitable for cable cross-sections up to 6 mm² (solid conductors up to 4 mm²).

Multi-Purpose Strippers

Technical Data

Cable type	finely stranded and solid conductors with PVC insulations, round and wet room cables
Application range	0,5 - 6,0 mm ² (20 - 10 AWG)
Additional use	terminal crimping 0.5 - 2.5 mm ² and 4.0 - 6.0 mm ²
Material	fibreglass-reinforced biopolymer such as polyamide
Inner blade	replaceable
Approval / certificate	safety tested by TÜV NORD
Accessories	spare blade, art. no. 51953020
Weight	115 g
Length	160 mm
Article number	10062010

Attention:
Tool not to be used on live cables or conductors.
