Stripping Tools

Coax-Stripper No 1 F Plus Green Line - suitable for F-screw connectors

With the Green Line, a very special tool range has been developed. The tools are made of up to 97 % renewable raw materials. The Green Line includes various cable strippers, wire strippers, and multifunctional stripping tools. WEICON Wire Strippers enable the fast, easy and even stripping of stranded and solid conductors. The wire stripper feature an ergonomic shape as well as an automatic scanning system, which identifies the cable diameter. This prevents damaging the inner conductor. The product family of wire strippers comprises several types, which are suitable for different applications and tailored to the users' individual needs. The wire strippers are used in skilled trades as well as in industrial applications, and they are also suitable for use in the domestic sector.

The Coax-Stripper No. 1 F Plus enables fast and easy stripping of all coaxial cables in just one single step. Due to the two pairs of blades facing each other, the stripping process can be carried out quickly and in a space-saving manner by means of multiple, light rotary movements. The preset set-down dimension is suitable for common F-screw connectors (6 / 4 mm). If required, the blade inserts can be changed and thus other dimensions, e.g. for compression connectors (6.5 / 6.5 mm), can be realised. Blade inserts with other dimensions are optionally available and can be conveniently exchanged using the "click system". The tool is suitable for e.g. TV aerial cables from 6 - 8 mm. The gripping jaws can be used to screw the F-screw connectors onto the already stripped cable. The integrated open hexagon with 11 mm width across flats (SW 11 mm) enables space-saving assembly or disassembly of F-connectors during subsequent connection. Particularly in narrow places, the hexagon allows very good accessibility and can be operated without further preparation. A locking mechanism guarantees safe storage of the tool.

Technical Data

Cable type	coaxial cables, resp. antenna and transmission cables
Application range	outer diameter 6 - 8 mm, for F-screw connectors
Additional use	open hexagon with 11 mm wrench size (SW 11 mm) for mounting F-connectors
Material	fibreglass-reinforced biopolymer such as polyamide
Inner blade	modul inserts with fixed blades, changeable
Approval / certificate	safety tested by TÜV NORD
Weight	47 g
Length	125 mm
Article number	10062002

Attention:
Tool not to be used on live cables or conductors.
